

YOUR *life* • OUR PURPOSE

DAEMAR JONES
School of Medicine

BECAUSE YOU GAVE...

Firstly, I really want to show my gratitude and thanks for providing me with this scholarship. I never let cost get to me when I am trying to pursue my education, but this definitely relieves the stress that is put on my family. I am appreciative, especially coming from a low-income family that wanted the best for me even if they could not provide. They are the reason why I keep on pushing and this scholarship makes the push easier. Again, thank you so much for this great opportunity.

WITH YOUR SUPPORT, I CAN...

With this scholarship, I will be able to invest the funds into better education tools for my future. Coming from a family that has no experience with college and graduate school, they were not able to help out with funds for necessities. I plan to invest in learning necessities to facilitate my learning to become the best physician I can be. I plan to purchase textbooks, equipment for anatomy dissections, and proper physician equipment to increase my skills to become a doctor.

WHY I CHOSE TTUHSC...

While being the first person in my family to be accepted into college, Texas Tech was the only school to welcome me with warm arms out of the other schools. Being involved in the Lubbock community, I decided to stay because I never felt more at home. I chose TTUHSC because I know for a fact that I will have the highest satisfaction while in school. I know I can pursue my goals with the complete support of the faculty.
