

# YOUR *life* • OUR PURPOSE

**TYLER CHAPMAN**  
School of Medicine

## BECAUSE YOU GAVE...

I cannot thank the donor(s) enough for their generosity. My husband has a terminal illness that has had a massive impact on my decision to attend medical school, and his medical expenses are extremely expensive, even with insurance. By receiving the scholarships that you have provided for, you have offered substantial financial stability to my family and me. Your donation will not only assist my family during medical school, but it assisted me in practicing in an underserved rural area without the concern of excess student debt. I cannot begin to express my gratitude for your donation.

## WITH YOUR SUPPORT, I CAN...

The scholarship funds that I have received will be applied to my tuition for medical school. By receiving these funds my husband and I will be better prepared to pay for his education, as well as his extremely costly medical care. The graciousness of these scholarships will bring about much appreciated financial stability during a time of little to no income.

## WHY I CHOSE TTUHSC...

I am a West Texan, born and raised in Lubbock, Texas. West Texas is, and always will be, my home, and attending TTUHSC's School of Medicine has always been my first choice. My dream is remain in West Texas and provide care to patients in the rural areas that I grew up in. As a Paramedic in the area for over a decade, I have seen the caliber of physicians graduating from TTUHSC, and it became the obvious choice both professionally and financially when I decided to embark on the path of becoming a physician.
