

YOUR *life* • OUR PURPOSE

TAYLOR GOODFELLOW
School of Medicine

BECAUSE YOU GAVE...

I would like to thank you for the support that you give every Texas Tech student, emotionally and financially. Part of my biggest worry about medical school is finding a way to pay for it, and with your contribution, that allows me to focus more on the subject that I love learning. I have lived in Lubbock for over eight years, and I cannot imagine starting my medical career anywhere else!

WITH YOUR SUPPORT, I CAN...

With this scholarship, I will be able to pay for my tuition. While I still plan to take loans for the rest of the tuition not covered, being given a scholarship helps with the stress that comes before the classes start. If any of this scholarship is over the base tuition amount, the rest will go towards books, housing and/or extra materials needed for class.

WHY I CHOSE TTUHSC...

I have lived in Lubbock for about eight years now, and I have grown accustomed to the friendly atmosphere that Texas Tech offers. I am not a traditional student, as I took many years nursing before I decided to go back to school for more. Now, I cannot imagine starting my medical career anywhere else. Texas Tech gave me an amazing undergraduate career, Covenant gave me ample work experience as a nurse, and I know that the TTUHSC will give me the right materials to have a long career.
