School of Medicine

BECAUSE YOU GAVE...

When my grandparents came to this country, they went through a lot to make sure we could have every opportunity and every door open to us. I never took this for granted and always wanted to be the best I could be, which for me meant pursuing a career in medicine like my father and grandfather. Scholarships like these remind me that I really am equipped with everything I need to make that dream a reality. Thank you for investing in my future and being a part of my journey.

WITH YOUR SUPPORT, I CAN...

This scholarship will help in covering a portion of my tuition and allow me to decrease the amount of loans I will have to take out for this coming year. My parents have three kids in college and me in medical school, so any scholarship is a huge help in alleviating that financial burden.

WHY I CHOSE TTUHSC...

I chose TTUHSC because of the people I encountered during my interview. I was impressed with the FMAT program and knew it was for me. As I have gone through these last two years, TTUHSC and the FMAT program have been more than I could have hoped. The administration and staff have really made me feel like my learning experience is important to them and I could not be more grateful. am also thankful for the support system I have in Lubbock, such as my best friend Sunni, who is pictured on the right with me.

BECAUSE YOU GAVE...

I can't thank you enough. Medical school is difficult enough already without financial worries. In fact, I've lived my childhood and adolescent life below the poverty line in an immigrant family, and throughout college, I have had to work full time to help support my family. I'm not able to work much at all in medical school to supplement my income, so I deeply appreciate the support I get from scholarship donors.

WITH YOUR SUPPORT, I CAN...

Scholarships are a very importance source of financial support for me. The funds from my scholarship allows me to have more peace of mind when I'm budgeting for books and resources that I use throughout the year, which can be expensive and add up over time. I have also had some unexpected costs for emergency medical care during my time in school so this scholarship will help alleviate the resulting financial strain.

WHY I CHOSE TTUHSC...

When I went on my medical school interviews, I fell in love with TTUHSC and thought that the school was a great fit for me. I was so excited that when I got my acceptance in November, I canceled all my upcoming interviews. I appreciate how much the faculty and administration cares about the students, and we feel supported every step of the way.
