

# YOUR *life* • OUR PURPOSE

**CARLY CLINE**  
School of Medicine

## BECAUSE YOU GAVE...

Thank you so, so much for your donation. I don't come from a super rich family, and already in my first year I had financial troubles trying to make my loans cover all the costs I have to pay each month. Your donation will help me do that without taking out more and more loans that will become increasingly impossible to pay back. I am so grateful to you for your help with my medical education--I hope to use that education to pay forward the kindness you showed me!

## WITH YOUR SUPPORT, I CAN...

The scholarship helps me keep myself going each day through med school--the generosity of the scholarship donors will keep me fed and sheltered and ready to face each new day! I also am a member of several clubs which give opportunities to go to national conferences and extend my education that way! With the help of my scholarship, I will not have to worry about not being able to afford those opportunities.

## WHY I CHOSE TTUHSC...

I had several interviews when applying to med school, but TTUHSC was the only one where I genuinely felt that the students loved the school and were happy there. Med school is tough no matter where you are doing it, but being at a school that cares about you as a person makes a world of difference. And I have confirmed after my first year that TTUHSC really does care about me and wants to see me succeed!
