BECAUSE YOU GAVE...

Thank you so much. With a baby on the way and so many uncertainties caused by the pandemic, it is so helpful to have funding that allows me to focus and prioritize my education. I aspire to put myself in a position to give back financially to those supporting themselves through medical school, just like you have given generously to me.

WITH YOUR SUPPORT, I CAN...

This scholarship will help me achieve my goals of matching into a competitive pediatrics residency. Being completely self-funded, not having to worry as much about finances will allow me to focus more on my school work and will aid me in preparing for a successful match season. I will use these funds to pay for study resources and any interview expenses.

WHY I CHOSE TTUHSC...

The opportunities provided by the close-knit TTUHSC SOM family can't be matched. I felt from the beginning that the school cared about me as more than just an applicant or a potential board score. Over the years, I have developed significant relationships with many faculty that have invested in me and been integral in my success in medical school.

BECAUSE YOU GAVE...

Thank you so much for believing in my dream and potential of becoming a doctor. I plan on going into pediatrics and hope to inspire other kids to always shoot for the moon because everything is possible if the will is strong enough. I wish to someday become a mentor for the next generation of physicians since I have received so much support and I want to pay it forward.

WITH YOUR SUPPORT, I CAN...

I am very grateful for this scholarship because it not only alleviates some of the financial debt that I will incur in pursuing my dream of becoming a physician, but also shows me that there is so much support and guidance along the way. Money was always an inevitable topic of conversation when looking into colleges and later medical schools and I am appreciative of this gift. I plan on applying the money towards my tuition.

WHY I CHOSE TTUHSC...

I chose TTUHSC almost entirely based on the Deans Ambassadors I spoke to throughout my interview day. I sat with a student who described Tech as the best decision she could have made thanks to the collaborative, friendly nature of the students and the receptive faculty and staff. One of my interviewers that day was actually a MS4 and she made me feel like I belonged at Tech from what she gathered from my personal statement. This school has opened my eyes to a new interest of going into medical education as well as practicing medicine.
