

YOUR *life* • OUR PURPOSE

- We decided to utilize Zoom due to the added customizability over Microsoft Skype for Business.
- Will facilitate telemedicine for our clinical projects and will be used for both the clinical and academic sides of the program.
- Clinical faculty will be able to use Zoom for its professional purposes.
- Patients will be able to use Zoom to participate in their clinical visits with ease.
- Department faculty will be able to use Zoom to ease the burden of having to increase the number of clinical visits to medical students and faculty members for the whole.
- Telemedicine will be used for patient transportation.
- In reference to the clinical project, we can use Zoom to facilitate the clinical project.

School of Medicine

BECAUSE YOU GAVE...

This scholarship will be very helpful to me and I sincerely thank you. With the coronavirus and other events leading to great uncertainty this application cycle and exams, this award has brought much ease to me. I come from a family that has always struggled to make ends meet financially after my father got laid off from IBM in 1999 and had to drastically change his career to the small business world. My family has a lot of debt due to these struggles, so having less debt to worry about has put me and my family at ease.

WITH YOUR SUPPORT, I CAN...

I appreciate this award because it will go towards my applications for residency that are a large sum of money this year. I had planned to take out extra loans for these application fees, but this scholarship will allow me to take out less funds for this purpose. I was reaching the limit of how much I could take out for the next academic year, so this will be very helpful.

WHY I CHOSE TTUHSC...

I graduated from UT Austin in 2016 and took a gap year after not receiving admission to medical school initially, but knew after my first interview at TTUHSC I knew I wanted to come here. Everyone was super nice and helpful, whether you were from the area or not, whether you were settling in here or just passing by or visiting. Every upperclassman walked with a smile which I really appreciated!
