

YOUR *life* • OUR PURPOSE

HECTOR LINARES GARCIA
School of Medicine

BECAUSE YOU GAVE...

I would like to thank you for your generous support in funding a scholarship to help medical students. As a first generation of immigrants in the United States, my parents and I struggle financially and culturally. Despite my parents' struggle to finance my education, they always remind me that I have an unparalleled opportunity to be pursuing a medical degree in this country. Indeed, your financial support is proof of that as it allows me to focus on my professional goals with a greater desire and enthusiasm. I hope one day to fund scholarships to help future incoming medical students.

WITH YOUR SUPPORT, I CAN...

With this generous support, I am one step closer to achieving my goals of becoming a physician. This scholarship will help me pay for my medical education expenses, and I won't have to take on a part-time job, which allows me to have more time to focus on my studies. This award gives me an opportunity to earn valuable medical skills that will help me give back to the community as a medical student by volunteering at a clinic, and as a future doctor by working at a hospital.

WHY I CHOSE TTUHSC...

My interview at Lubbock was my deciding factor in choosing TTUHSC. It made me feel that I was in the right place to complete my medical education. I felt connected with the faculty and student body. I liked that TTUHSC has a teaching hospital next to it, and a brand-new anatomy lab. I adamantly believe that TTUHSC has the necessary resources for students to become well-rounded applicants for their residency programs, and excel in their respective medical specialties.
