

YOUR *life* • OUR PURPOSE

PAUL GASCHEN
School of Medicine

BECAUSE YOU GAVE...

I am so incredibly thankful for this scholarship and the opportunity to continue my career at TTUHSC. The aid you have provided is extremely consequential in making sure that students like myself can put their full effort toward getting the most out of their education. I look forward to a future date when I will be able to bless others in their educational goals as you have done for me.

WITH YOUR SUPPORT, I CAN...

Receiving this scholarship to attend school will make an incredible impact on this upcoming year. As our clinical rotations begin, I will be able to focus on schoolwork and seeing patients, without the burden of thinking about rent or utilities. I plan to use this aid to pay for food, purchase study materials, and keep the lights on at my house.

WHY I CHOSE TTUHSC...

I am originally from Lubbock but left the city to attend college elsewhere. TTUHSC was not originally on my radar when I began applying to medical school because I thought that, after 22 years, I knew Lubbock. However, when I interviewed at the school and toured the beautiful facilities, I was blown away by both the professionalism and family-oriented nature. Everyone I interacted with that day gave me the traditional "big" West Texas welcome, but they went beyond that and truly made me feel like I was at home.
