Texas Tech University Health Sciences Center  
School of Medicine

## BECAUSE YOU GAVE...

Thank you for your generosity and making a difference in the lives of students. Scholarships are the gifts that keep on giving, allowing us as students to give back in another form, whether it be community service or an international away rotation allowing the gift to be multiplied by a thousand-fold. Fourth year of medical school is a costly year with interviews, applications, away rotations, etc., and I am thankful and blessed to have been chosen for this scholarship. I am also planning on doing an international rotation in order to learn about the healthcare system of a different country.

## WITH YOUR SUPPORT, I CAN...

This scholarship will help me achieve my goal of paying off my medical school debts as quickly as possible. The debt of medical school rises quickly and before you know it, it is an enormous amount that seems worrying to pay back, but gifts like scholarships assist in offsetting that cost. In return, I hope to be involved with philanthropy in the future and give back to help other students in order to help them reach their goals and full potential.

## WHY I CHOSE TTUHSC...

I chose TTUHSC because it was an environment where I really felt the camaraderie in the student body when I was interviewing and knew that it would be an ideal place to train for medical school. It has been one of the best choices that I have made and the opportunities that have been available to students here have been endless. The faculty here are very supportive of students, and help them in reaching and unlocking their potential.
