BECAUSE YOU GAVE...

Thank you. Your donation will be an important piece of a long list of reasons I will hold my future career to extremely high standards. To help my patients, to better myself, and honor my profession, my institution, and donors like you who make it possible.

WITH YOUR SUPPORT, I CAN...

Simply put, the funds from this scholarship will be used to obtain a residency. First, I will be attending the AAFP National Conference in Kansas City. Hosting hundreds of residents from family medicine, it is without a doubt the single largest exposure to the residency programs I will be applying to next year. Aside from attending this conference, I will use the money for interview travel, lodging, and materials.

WHY I CHOSE TTUHSC...

It was the best opportunity for me to achieve my goal of becoming a doctor. It offered unparalleled primary care experience, networking, and educational facilities needed to grow my medical skills. Additionally, it offered these services at a relatively affordable cost and has provided some foundation for managing finances afterwards. Lubbock has also provided a terrific location for my wife to grow her career as a nurse. I have made relationships here that will last a lifetime.
