## BECAUSE YOU GAVE...

Words cannot adequately express my gratitude for this gift. Please know that this aid will not only help me but also those I will one day have the opportunity to serve. Thank you for your help in making my dream of becoming a physician come true!

## WITH YOUR SUPPORT, I CAN...

I left behind a stable career in education to become a physician. This scholarship will help reduce the debt that my wife and I will be taking on during this time and make it easier for her to support the two of us. We are also planning to have a child during this time, and aid such as this will help make that dream a reality by giving us a more stable financial outlook.

## WHY I CHOSE TTUHSC...

I was attracted to TTUHSC because of the family practice programs and commitment to helping the community (especially rural and underserved populations). I wanted to become a member of the Family Medicine Accelerated Track program so that I could help make a difference in my community as quickly as possible. TTUHSC is a fantastic and highly respected institution, and I am proud to be a student here.

## BECAUSE YOU GAVE...

Thank you for your investment in my future. It is such an honor to receive this scholarship named after two physicians that dedicated themselves to their profession and TTUHSC. As I begin my first year of medical school, I hope to not only perform well academically but also to thrive in and contribute to the TTUHSC and Lubbock community. I look forward to my career and the opportunity to give back to future physicians, just as you have.

## WITH YOUR SUPPORT, I CAN...

In my career, I hope to serve a rural area as a family medicine physician. This generous investment to my medical education eases the financial burden that I will experience in my first year of medical school and in my future career. As a medical school student, I am relying on loans to fund my education, and this scholarship assists in easing the sometimes intimidating reality of my situation.

## WHY I CHOSE TTUHSC...

I chose TTUHSC School of Medicine because I loved the people that I interacted with in Lubbock and on campus. Everyone made me feel so welcome, and the student that I stayed with for my interview made my entire experience absolutely wonderful. Just when I thought this had to be an anomaly, every other student I met while on campus for my interview was so kind and smart as well. I instantly knew that this community of students was special. I have so many things that I hope to accomplish while in medical school, among these include learning more about family medicine, conducting rural research, and growing personally. I truly feel that I can and will accomplish these things at TTUHSC, and I look forward to the opportunity.
