

MADISON SCHOEBERL

Texas Tech University Health Sciences Center
School of Medicine

BECAUSE YOU GAVE...

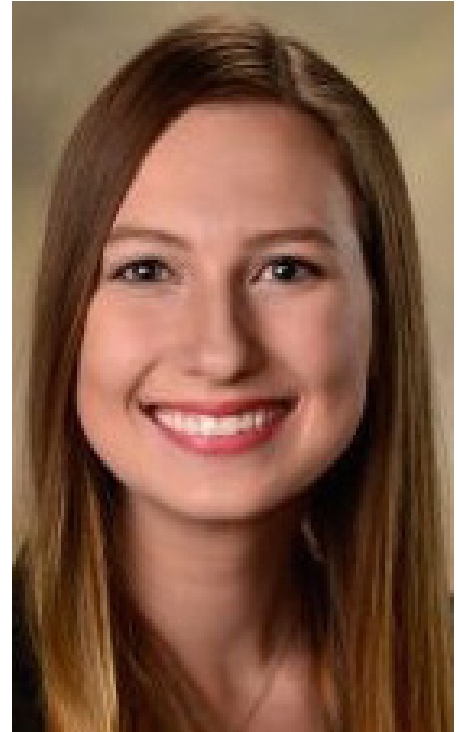

This scholarship will help me purchase items such as books and study aids, that will vastly improve the quality of my education. I am the type of student that loves to have the hard copy of the book in front of me when I study. Though a lot of the texts are available online, I often still end up buying them using my own money. This scholarship will alleviate part of that financial burden.

WITH YOUR SUPPORT, I CAN...

I just want to thank the donor for their generous donation and to let them know how much this means to me. As a student, I am pretty much completely broke and that can prove a bit stressful. This scholarship will allow me to buy my books without feeling like I need to sacrifice buying healthy groceries that week or stressing over my electricity bill. I am so grateful for wonderful, generous people such as those who allowed me to have this scholarship. I hope one day when I am able I can help students in the same way.

WHY I CHOSE TTUHSC...

Unlike any other school I visited, TTUHSC felt like a family. Everyone I interacted with before and since my acceptance have been so kind and generous with their time and resources. I felt like this was a place that I would have not only an excellent education, but an excellent quality of life during medical school. I am so excited to get started and become a real member of the community.

Texas Tech University Health Sciences Center
School of Medicine

This financial award will help ease the steep financial requirement for medical school. Awards like this will help me focus on becoming the best doctor I can be and help ease the stress of affording medical school. I truly appreciate being awarded this scholarship.

Thank you. People like you inspire me to take similar actions that you have. The only reason I could go to my dream school, was because of generous donors. Now, you are helping ease the financial requirement of following my dream. I can't say 'thank you' enough. I truly appreciate you and can assure you that I will make an impact at this school while I'm here. Thank you again and God bless.

I chose TTUHSC because it is an in state school, and is close to home. I am originally from Amarillo, but I attended Oklahoma State in Stillwater, OK. Coming back to West Texas, where there is a physician shortage, has always been the goal for me. When I toured TTUHSC, it felt like home. This place is where I belong and I am motivated and determined to make an impact while I serve the next four years at this great institution.
