BECAUSE YOU GAVE...

For many non-traditional students, loans are basically our primary means of affording a higher education and a comfortable standard of living while earning our degrees. For me personally, these scholarships help me provide for my wife and daughters without the added stress financial burdens create. We hope to pay it forward to those who seek to follow the road less traveled and continue to elevate the expectations of future family generations, just as my wife and I have with our own children and families.

WITH YOUR SUPPORT, I CAN...

I would like to express my eternal gratitude for the gift of the scholarship. We thank you again for your gift and hope to convey the idea that we will continue to give back to our community and the next generation of students, for they are the minds that will solve the problems of today and hopefully begin to create a world we never thought was possible.

WHY I CHOSE TTUHSC...

I am a Lubbock native and have had the opportunity to watch how quickly it has grown in recent years. With the GMS program, I was able to take the first year medical school courses and show that I was able to handle the work load necessary of a medical education. I was also given the opportunity to be a part of the FMAT program, which will not only speed up my journey to becoming a family physician, but will also alleviate some of the financial burden while providing a residency position in the community I grew up in. I am so happy to be a part of TTUHSC and look forward to paying it forward in the community that has given me so much opportunity.

Texas Tech University Health Sciences Center
School of Medicine

This scholarship will help me tremendously with the costs associated with medical school, such as books and equipment. These things are needed to supplement my education at the School of Medicine, and this scholarship will help focus more on my studies.

I would like to say thank you very much for their generosity and support of my medical education. Pursuing medicine is a rigorous, but rewarding journey and I am excited to begin it. This scholarship will certainly help with the costs associated with medical school and is greatly appreciated. Thank you!

I chose TTUHSC because of their prestigious reputation in providing health care professionals in this region of Texas. The school is also in my hometown where I grew up, which provides me a great support system as I pursue my education in medicine.
