

DOMINIQUE FOSTER

Texas Tech University Health Sciences Center
School of Medicine

BECAUSE YOU GAVE...

I would like to say thank you for your generosity. I am a first generation college student who started long ago on this journey to become a family medicine physician. Of course, the road has not been without its challenges, but I am grateful for the experiences that I have had. I am married to my high school sweetheart, Kade, and we have a one year old little boy named, Brantley, who came as I began my third year of medical school.

WITH YOUR SUPPORT, I CAN...

I am currently in the process of interviewing for a family medicine residency position within the state of Texas. This scholarship will greatly aide in the expenses that go along with this exciting season!

WHY I CHOSE TTUHSC...

Choosing TTUHSC was no struggle for me simply because it I grew up in West Texas and genuinely love this area. I attended Texas Tech University for undergraduate work and was accepted early to medical school via the Undergraduate to Medical School Initiative via the Honor's College. I have loved the opportunity to stay close to home where I enjoy the area and the people. Ultimately, it is my hope to return to a small West Texas community in order to serve them with the gifts and skills that I possess.
