School of Medicine

## BECAUSE YOU GAVE...

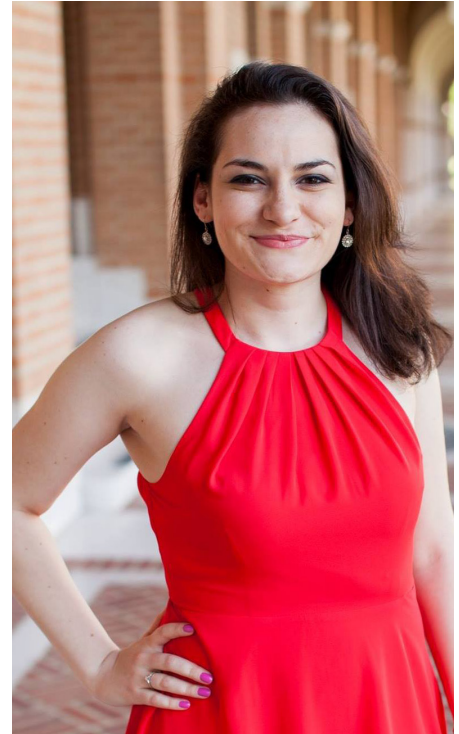

I would like to thank my donors for supporting me in the pursuit of my dream to become a doctor. I am proud to attend a university which encourages the endeavors of capable students regardless of their financial need. Thank you!

## WITH YOUR SUPPORT, I CAN...

This scholarship will help me minimize the amount I owe in loans once I graduate from medical school, especially since I am financially independent of my parents. I am immensely grateful for this scholarship because it will give me some financial peace-of-mind as I transition from Houston to Lubbock for my first year of medical school.

## WHY I CHOSE TTUHSC...

I envision myself working in a low-income community where my patients finally have access to quality primary care. I currently tackle educational inequity head-on as a teacher in a low-income, primarily Hispanic, community in Houston. Despite the progress I make in the classroom, I want to do more for these communities. I have found my calling for fighting against inequity and, moving forward with that momentum, I want to dedicate my life to dismantling healthcare inequity hands-on as a physician. The values of TTUHSC and the school's location in Lubbock directly align with my dedication to underserved communities.

## BECAUSE YOU GAVE...

This scholarship does more than help me pay for my medical education. It sets a goal for me to live up to. Once I begin my medical career, I hope to pay it forward and make sure that future generations of medical students receive the same opportunity.

## WITH YOUR SUPPORT, I CAN...

This scholarship will reduce the loan I will need to take out to pay for my medical education. Not only will this allow me to be able to afford textbooks and supplemental material, but it will also help to reduce the financial burden a medical education will place on my family, especially since my younger brother will also be attending medical school next year.

## WHY I CHOSE TTUHSC...

I envision myself working in a low-income community where my After interviewing, I was won over by the incredibly friendly student body and faculty and TTUHSC commitment to providing the most USMLE preparation.
