BECAUSE YOU GAVE...

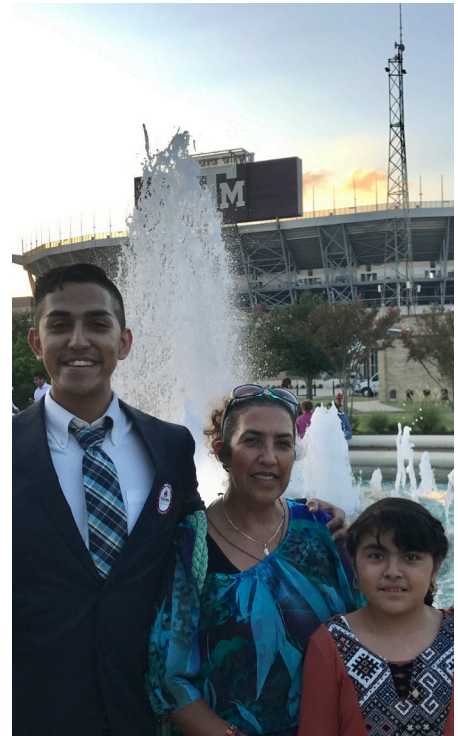

First of all, I would like to express how incredibly grateful I am for these scholarships. It means a lot to me that you chose me as the recipient of your scholarship, and I am extremely thankful for generous people like you whose contributions and support have helped make my career goals possible.

WITH YOUR SUPPORT, I CAN...

These scholarships will have a huge impact on my medical school education. One of my biggest concerns regarding attending medical school has always been the cost. My family is not well-off financially, so we have no money saved up to help pay for my education. This meant that without scholarships or grants, my medical school education would have to be financed completely through loans.

WHY I CHOSE TTUHSC...

As a member of the Joint Admissions Medical Program (JAMP) I had the opportunity to interview at nine medical schools throughout the state of Texas. Each school had several qualities, but I never really saw myself fit into one particular school until I interviewed at TTUHSC. One of the things that quickly stuck out to me was how welcoming and nice that all the current students were. To me, it seemed as though everyone there actually knew each other and was friends with one another.
