

YOUR *life* • OUR PURPOSE

RYLAN DUNCAN
School of Nursing

BECAUSE YOU GAVE...

I just want to say thank you so much for funding not only my education but my goals and dreams. Having someone choose me for something so special shows me that people believe in me and have faith that I can make a difference one day. Upon graduation, I plan to move to the Dallas area and become a mental health or labor and delivery nurse. I have always been passionate about babies, but the interest in mental health was brought upon by my brother's recent struggle with depression and suicide attempt.

WITH YOUR SUPPORT, I CAN...

This scholarship will assist me in paying for my tuition in the upcoming billing cycle. With taking a considerable chunk out of my tuition, I will be able to focus on purchasing school supplies and other tools and required materials for the upcoming levels. Not only will this scholarship help my physical struggles, but it will also considerably help the mental challenges being a college student and specifically being in nursing school presents.

WHY I CHOSE TTUHSC...

I have always been a red raider at heart, so coming to Texas Tech for my prerequisite courses was a no-brainer. Then, when I decided nursing was my dream, I was so thankful I chose a school with one of the most prestigious programs attached to it. Ever since I toured the campus, being a part of the TTUHSC-SON was my ultimate goal, and there was no better feeling in the world than when I was accepted.
