

Texas Tech University Health Sciences Center
School of Nursing

I am paying for my degree by myself and will be working part time as well. This scholarship will help me tremendously! I feel blessed to be awarded this scholarship and to able to apply this monetary award toward my tuition expenses. Due to this huge monetary contribution, my tuition will now be covered up until graduation. This is a huge blessing to me!

I would like to say thank you so much! This scholarship is enough to cover my tuition up until I graduate. I know I can never repay you for the blessings you have bestowed upon me, but I plan on paying it forward and helping future Nurse Practitioner Students at Texas Tech Health Science Center in the future. You are a God send and I will be forever grateful to have been awarded this scholarship.

I chose TTUHSC because it is a diverse nursing program. Being an African American woman it was nice to see them promote diversity among their faculty and on educational brochures for the university. It feels good to know I am attending an inclusive school. Additionally, the program works hard at advancing the future of nursing and I feel blessed to have been chosen to attend the MSN program.
