

ANDRES HERRERA

Jerry H. Hodge School of Pharmacy

BECAUSE YOU GAVE...

Thank you again for the this scholarship, any amount awarded to me is going to help me out with paying my tuition for the academic year. Out of my family members, I am the only one to have received a Bachelor's Degree and continue on to receive a Doctoral Degree so this scholarship means a lot to me. My plan for the future is to hopefully get accepted into a residency program and become a Board Certified Oncology Pharmacist.

WITH YOUR SUPPORT, I CAN...

With the funds that I have been awarded from this scholarship, the funds will help with paying my tuition for the 2020-2021 academic school year. The amount awarded to me will lessen the amount of money I will have to take out from loans which I appreciate because while I do have support from my family, I am the main contributor paying for school.

WHY I CHOSE TTUHSC...

I am from Lubbock and attended TTU where I received my Bachelor's Degree in Biochemistry, I knew I was interested in TTUHSC because I wanted to stay in the Texas Tech University System. While I worked as a pharmacy tech during undergrad, my pharmacist attended TTUHSC and seeing how great of a pharmacist she became really pushed me to attend TTUHSC because I aspire to be as good as a pharmacist like her.

KYNSEY EBELING

Jerry H. Hodge School of Pharmacy

BECAUSE YOU GAVE...

As aforementioned, this scholarship will open a multitude of opportunities for me to truly explore the profession and to be able to find a field in the profession I love in which I feel I will be able to best excel. This will allow me to provide elite care to my patients as well as help educate the next generation of pharmacists to the best of my abilities. I truly cannot express the extent to which this scholarship will impact not only myself, but those I strive to serve.

WITH YOUR SUPPORT, I CAN...

As not only a first-generation PharmD candidate, but also a first-generation college student, pharmacy school has proven a challenging course to navigate. Through the scholarship opportunity you have provided me, I will be able to not only increase my ability to focus on school by not having to work as much, but also explore a multitude of different paths within pharmacy to deepen my passion for the profession. With this scholarship, I will be able to increase my participation in organizations and volunteer opportunities to expand my knowledge, experience, and public outreach to better the health of my community.

WHY I CHOSE TTUHSC...

Having been born and raised in Lubbock, I have always wanted to be a Red Raider, and that passion only grew as I studied there as an undergraduate. Realizing how many opportunities that Texas Tech has created for me, I knew that TTUHSC would be an incredible place for me to grow as both a student and a professional.

MARGARET BUSHMAN

Jerry H. Hodge School of Pharmacy

BECAUSE YOU GAVE...

Thank you so much for this scholarship! As a mother to an 11 month old, balancing finances and education is difficult. With this scholarship, I'm one step closer to my goal. I graduate this upcoming May and I hope to go into residency and ultimately become a pharmacist in the ambulatory care setting. I hope specifically that I can work with veterans in the VA and give back to the community.

WITH YOUR SUPPORT, I CAN...

This scholarship will help me pursue my education goals without having to worry about money. I am currently in my last year of pharmacy school and as such, I am looking into residency. This scholarship will help me afford the travel cost for interviews and applications. It is one less worry that I have thanks to this scholarship.

WHY I CHOSE TTUHSC...

I chose to attend TTUHSC because of all the opportunities it has provided my family. I attended Texas Tech for my B.S in Biology, and I was lucky to continue my education in the TTUHSC Pharm.D/MBA dual program. While I am completing my degree, my husband also has the chance to attend Texas Tech to study chemical engineering. Texas Tech University System has helped my family balance both school and family through their great faculty that is always willing to help.
