

EMILEY NOVAK

Jerry H. Hodge School of Pharmacy

BECAUSE YOU GAVE...

I am writing to express my sincere gratitude for being awarded this scholarship. When I received the news, I was thrilled and my family was very proud! While being in pharmacy school I make it a point to be a well-rounded student. It is important to me to focus on both book work as well as volunteer work each month. Over the years I have enjoyed giving back to the community and interacting with others. Although I do not do it for recognition, I am very appreciative to have been awarded a scholarship due to my work.

WITH YOUR SUPPORT, I CAN...

While being in pharmacy school, I have had to fund my own education. I try to not be employed throughout the school year because I want to focus on my educational responsibilities. This scholarship will allow me to continue to put all my attention toward my studies and reach new academic achievements.

WHY I CHOSE TTUHSC...

I attended TTU to complete my pre-pharmacy courses and after a few months of being in West Texas I knew I wanted to stay. I began learning about TTUHSC and researching what the school had to offer. Not only does the pharmacy school offer a well-rounded educational experience for its students, offering insight to many different specialties of pharmacy, but they also showed a strong devotion to hospitality. It was an obvious choice for me to choose the school that made me feel a part of their family before I was officially a student.
