BECAUSE YOU GAVE...

Being a DACA recipient can be very intimidating and discouraging as you embark in a long journey like grad school. If there is one thing DACA has brought on is definitely uncertainty. I am very familiar with that feeling and look forward to be able to be there for my community during a very difficult time in humanity with COVID-19. I look forward to being able to devote my time, attention and efforts to clerkships, while also bringing awareness about a social issue in the community.

WITH YOUR SUPPORT, I CAN...

All financial help will go towards the cost of living during a busy final year of clinical clerkships that will limit my ability to work throughout the year. Among these costs include gas, travel, groceries, and others. I am very grateful for all financial assistance during a very important year where I can put my knowledge into practice. Most clerkships allow for a unique experience and I will be able to devote most of my time to those matters and less in worries of working to meet my ends every month.

WHY I CHOSE TTUHSC...

The entire staff and faculty at TTUHSC SOP has been incredibly supportive during a very difficult journey as a graduate student and a DACA recipient. I am very grateful for everyone that has helped me along this journey and I will be forever in debt for all the support. I am very proud to have had the opportunity to attend and meet wonderful people, and will cherish the friendships for the rest of my life.
