Jerry H. Hodge School of Pharmacy

### **BECAUSE YOU GAVE...**

I have wanted to become a pharmacist since I was sixteen. I worked in a pharmacy every day after high school for two years then worked at the Student Wellness Pharmacy throughout my undergraduate studies. I found both the science behind medication and the pharmacist-patient relationship fascinating. My passion for pharmacy can now be molded into the knowledge and experience needed to become a Clinical Pharmacist at TTUHSC. Your generous funding is allowing me to continue to pursue my dreams and for that, I could not be more grateful. Thank you.

### **WITH YOUR SUPPORT, I CAN...**

Due to the current pandemic, all of my classes will be online. This lead to a new financial burden for me when I moved into my RV. The slow WIFI at the RV Park would have been sufficient for leisure activities after school. However, it was too slow and weak for fully online courses. Getting better internet has been challenging and costly. Thanks to your generous scholarship, I can now afford internet that will ensure I can make the most out of my first year in pharmacy school.

### **WHY I CHOSE TTUHSC...**

My interest in TTUHSC began when I worked as a pharmacy technician for the Student Wellness Pharmacy on Texas Tech's campus for two years during my undergraduate studies. I choose to pursue my PharmD at TTUHSC due to the professors and faculty being incredibly accomplished and genuinely caring for their students. I felt at home and taken care of at TTUHSC just like I did at Texas Tech. While pharmacy school will undoubtedly be challenging, I know that TTUHSC will equip me with the skills needed to become a proficient and caring pharmacist.
