

the **FUTURE** *of* **HEALTH**

TEXAS TECH UNIVERSITY  HEALTH SCIENCES CENTER™

ALEXIS DAVILA

School of Nursing

BECAUSE YOU *gave...*

I chose a Bachelor of Science in Nursing in healthcare because of a deeply personal experience that shaped my understanding of compassionate care's impact on individuals and families. An aspiration of mine is to be part of the healthcare field and provide compassionate care to each patient. This path aligns with my values and desire to make a meaningful difference in people's lives.

WITH **YOUR SUPPORT, I CAN...**

Without this scholarship, my educational journey would have faced several challenges. I would likely have to work part-time to cover tuition and living expenses, leaving less time for my studies and extracurricular activities. The financial difficulties might have made me consider a less rigorous academic program, limiting my growth and career advancement opportunities.

WHY I CHOSE *ttuhsc...*

Participating in community outreach activities allowed me to connect with local families, fostering empathy and a sense of responsibility toward those we serve. I participate in the TNSA Association in the Camarillo campus to engage with my peers and mentors. Gathering as a group relieves stress and have a fun social outing with each other.
