

the **FUTURE** *of* **HEALTH**

TEXAS TECH UNIVERSITY  HEALTH SCIENCES CENTER™

ISIS GORDON

School of Medicine

BECAUSE YOU *gave...*

I have always known I wanted to be a physician. When I was a little girl, I would tell people I was going to be a heart surgeon. Now that I have come to understand myself and the medical field a little better, I know now I will be a family medicine physician. Family medicine is my true calling and will allow me to fulfill my passion for learning and having a broad base of knowledge regarding the health and wellness of my patients.

WITH **YOUR SUPPORT, I CAN...**

This scholarship will allow me to focus solely on my academic pursuits. I am grateful that my financial stress has been lessened immensely with the money from this scholarship, and that I will be able to go into my second year of medical school without thought of the financial burden on my family. I now have the opportunity to be enriched by additional professional and academic experiences with this additional funding.

WHY I CHOSE *ttuhsc...*

I have grown to love the TTUHSC community. Every employee and student I have come to know thus far has enriched my heart and broadened my understanding of the world. Whether through volunteering at the Free Clinic, club activities, and my usual study group, I have found a community that makes me feel like I belong and has allowed me to grow both academically and personally. The most important thing I have learned since starting my graduate degree has been that working as a community to uplift each member is where real change occurs, as a whole and individually.
