School of Health Professions

BECAUSE YOU *gave...*

I chose speech, language, and hearing sciences as my degree path because I knew that I wanted a career that would be a hands-on job helping people. I wanted a job that would allow me to interact with all types of people and be able to offer my help to them. I have always been interested in the fascination of hearing and how we speak, so I figured speech pathology would be a great career path for me.

WITH **YOUR SUPPORT, I CAN...**

This scholarship has impacted my academic experience by lightening my financial obligations. Receiving this scholarship has encouraged me to work even harder and to continue chasing higher education. This scholarship has created many opportunities, in that it will impact my academic experience as a student and encourage my determination to succeed.

WHY I CHOSE *ttuhsc...*

One of the best things I have learned outside of the classroom was from working at a summer camp in Missouri. I learned how to be more present in our digital age and how to truly focus on the present and not dwell on the future or past. Learning this has helped me as a student and young adult, in that I can live more joyfully and less overwhelmingly. One of the best things I have learned in the classroom is to ask questions. Asking questions is important and opens a better understanding to gain new perspectives.
