

the **FUTURE** *of* **HEALTH**

TEXAS TECH UNIVERSITY  HEALTH SCIENCES CENTER™

BRANDON YOUSSI

School of Medicine

BECAUSE YOU *gave...*

I chose to become an MD to pursue a career filled with purpose and meaning. Unlike many who endure unfulfilling jobs, medicine challenges me daily and allows me to make a profound impact on others. The hard work and dedication in this field affirm my commitment to my patients and highlight the greatness and virtue of striving toward a noble goal. Embracing this path enables me to realize my potential, and contribute to others' well-being. This profession truly embodies what it means to be human and alive.

WITH **YOUR SUPPORT, I CAN...**

I am very grateful for this financial support. This scholarship allows me to spend my time focusing on school and delving deeply into everything related to medicine. Without this support, I would be spending what little free time I have working with Doordash or Uber to make ends meet. Furthermore, it enables me to dedicate more time to research, enhancing my academic experience and future career prospects. Thank you for investing in my education and future.

WHY I CHOSE *ttuhsc...*

I have learned a lot outside the classroom, particularly through my research in neurosurgery, dermatology, burn care, and machine learning. Securing grants for projects at TTUHSC has been possible thanks to financial support like this, allowing me to contribute to groundbreaking studies. Additionally, I recently had the opportunity to present my research at the Congress of Neurological Surgeons, a national conference, which was a significant milestone in my academic career. Outside of academics, I've discovered a new passion for golf, which brings me great joy and balance in my life. These experiences at TTUHSC have been invaluable.
