

YOUR *life* • OUR PURPOSE
TEXAS TECH UNIVERSITY  HEALTH SCIENCES CENTER.

CARSON LEWIS
School of Health Professions

BECAUSE YOU GAVE...

I have chosen physical therapy for the opportunity that it provides in supporting patients' growth towards both physical and especially spiritual health. From personal experiences, I realized that spending a great deal of time guiding patients and enabling them to work toward their own recovery has a powerful effect that goes deeper than their tissues. It is my belief that this is the recipe for lasting change and something that I would be grateful to pursue for my entire lifetime.

WITH YOUR SUPPORT, I CAN...

I am incredibly grateful for your generous contribution. This scholarship has allowed me to focus on the skills relevant to my passion, which will allow me to best serve fellow Texans in need of healthcare. It has created an opportunity for and inspired me to give back just as you have.

WHY I CHOSE TTUHSC...

A core lesson I have learned in my academic career as a Red Raider is the importance of building and maintaining relationships with fellow students. TTUHSC is full of talented and virtuous individuals to rely on, bounce ideas off of, and grow with. The prevalence of driven individuals within our halls speaks to the level of distinction and values upheld by our institution. These people will be our professional peers for years to come, but more than that many lifelong friends are made working with fellow students.
