School of Health Professions

BECAUSE YOU GAVE...

I chose my career path because I was able to see Occupational Therapy impact someone really close to me in my sister. She was in a car crash that put her in a wheel chair for about six months. Many healthcare professionals aided in her recovery but the way OTs helped her achieve goals that directly correlated with her living the life she wanted to live again was moving to me. I would be honored to get to have the same affect on others one day,

WITH YOUR SUPPORT, I CAN...

I am very grateful for this scholarship as it gives me an opportunity to come to TTUHSC. I am a person who relies on instate tuition as my college and grad school experiences are completely funded by myself. I strive to be a great and prepared future health care professional and I appreciate the support that I get to accomplishing that goal.

WHY I CHOSE TTUHSC...

I have learned the value of occupational therapy in the world through the patients eyes. You may come across an individual that has yet to have any meaningful human connection that day due to any number of reasons. It is an opportunity that we are able to possibly impact them on both a healthcare level but also bring in human connection that could really impact them in a probably really stressful time for them.
