BECAUSE YOU GAVE...

I've been working as a music therapist since 2017. Initially I believed I would be the most fulfilled working in neurorehabilitation. I found, very much to my own surprise, that I enjoyed working in mental health populations. Since joining Houston Methodist Behavioral Health in 2018 I have worked in outpatient behavioral health and sought to sharpen my skills. As time went on, I found that my true calling was counseling and sought out TTU HSC as the best fit for my needs.

WITH YOUR SUPPORT, I CAN...

This scholarship will allow me to achieve a level of financial security that I have never experienced. I will finally have adequate emergency funds to seriously pay down debt, purchase books, and enter the counseling profession with financial independence. This safety will also help me choose more desirable jobs, and not just take anything that comes my way. Finally, it leaves some room to spend money on more advanced continuing education, keeping me well trained and best suited to helping my clients.

WHY I CHOSE TTUHSC...

My favorite experience at TTUHSC was attending the Betty Ford Experience. I had the pleasure of spending a week at the Betty Ford Clinic in California with a mix of students from different programs. I felt like I better understood the interdisciplinary work needed to help people in addictions and developed a strong bond with other folks at TTU. The trip left me exploring my own experiences and develop a deeper sense of empathy for future clients.
