School of Health Professions

BECAUSE YOU GAVE...

I learned how valuable independence is after my grandfather lost his. After an accident left him unable to complete most tasks on his own, his joy in life quickly began to fade. Occupational therapy allowed him to independently and safely complete meaningful activities in his life! I am so grateful to be pursuing a profession where I can help others return to their roles and activities which bring them joy every single day!

WITH YOUR SUPPORT, I CAN...

This scholarship is allowing me to fully pursue my education through financial stability to afford textbooks, courses, and conferences to grow as a student and future occupational therapist. Through this scholarship I am able to spend less time working and more time in my community providing services and assistance to different populations in Lubbock. Furthermore I am able to begin paying off my student loans to allow less of a financial burden when I graduate.

WHY I CHOSE TTUHSC...

I fell in love with Lubbock after attending an undergraduate program at Texas Tech and I am thrilled to be continuing my education in the OTD program at TTUHSC! Our program offers a variety of hands on opportunities in and outside our classrooms to offer real world experience! We also are fortunate to have an incredible cadaver lab and interprofessional course to study gross anatomy! I continue to be amazed by how special our professors, cohorts, and school are. I could not ask for a better place to learn alongside other occupational therapy students!
