

LACY PETTY

School of Health Professions

BECAUSE YOU GAVE...

I chose to study speech pathology because it combines my interests in linguistics, language, and science with my desire to positively impact the lives of other with my work. I have a bachelor's degree in agriculture and originally planned on working in that industry but my personal experience learning a language opened up a whole new world of interest and talents I didn't know I had. I have spent the past year working with children with communication disorders and this has only solidified my desire to become a Speech-Language Pathologist

WITH YOUR SUPPORT, I CAN...

Receiving this scholarship has relieved some of the stress and anxiety I felt about going back to graduate school. Although I am very excited to begin my studies, before receiving this award I had lot of fear about incurring a large amount of debt in the process. This scholarship has given me the ability to study without the added stress of paying

WHY I CHOSE TTUHSC...

I have yet to begin my program at Texas Tech so I cannot speak to any experiences I have had outside the classroom. However, I plan to take full advantage of everything Texas Tech had to offer by complementing my academic studies with participation in student organizations, attending athletic events, and volunteering in the community. My Dad and my sister are both Texas Tech alumni so I am excited to join the family tradition.
