

YOUR *life* • OUR PURPOSE
TEXAS TECH UNIVERSITY  HEALTH SCIENCES CENTER.

LAINY QUINN

School of Health Professions

BECAUSE YOU GAVE...

I have always desired to help others, but chose the path of physical therapy because it is how I have consistently felt I can connect with others in a positive way. The experiences I have had have shown me that I may obtain the knowledge to greatly improve others' quality of life by furthering my education. As I grew up, specifically watching my grandparents struggle with mundane tasks, I wanted to be able to assist them properly and help change their daily experiences for the better.

WITH YOUR SUPPORT, I CAN...

The funds provided through this scholarship would aid in the purchase of my books and supplies for my foreseen fall and spring semesters. It may potentially, as well, help in reducing the cost of my tuition at those times. As I will be paying for my own education, any opportunity I may have to reduce potential loans would also help me immensely.

WHY I CHOSE TTUHSC...

After researching many schools, I admire the exemplary vision of the TTUHSC in regards to student success. It is clear that they desire student success over monetary success, and all students I have spoken to can speak for this. I also appreciate that funding is used to improve student experience within the programs, creating new and improved labs and classrooms.
