

YOUR *life* • OUR PURPOSE
TEXAS TECH UNIVERSITY  HEALTH SCIENCES CENTER.

STEPHANIE LYON

School of Health Professions

BECAUSE YOU GAVE...

Occupational Therapy is such an important rehab science, and I look forward to one day serving those of all ages to live in the best way attainable for them. It is because of people like you that many students like myself can attend these programs to achieve our higher education and career goals. Without the generosity from giving souls such as yourself, many of our dreams would be even more difficult to obtain. I hope to one day be in the same position as you and to make the same decision. Thank you!

WITH YOUR SUPPORT, I CAN...

This scholarship will be applied to part of my tuition costs to attend the Texas Tech Health Sciences Center. I am very grateful for the support because it relieves some of the burden in paying back loans post-graduation, while also opening up more time to fully commit to my program given I will not have to work as much alongside my studies to acquire these funds out of pocket. It also relieves some financial burden given the rising costs of not only school but rent and other living expenses. Thank you!

WHY I CHOSE TTUHSC...

Upon writing this letter, I have yet to begin my program at the TTUHSC, but I can say from my interview process and from meeting with current students attending the program that it is clear how much the professors and faculty care about preparing well rounded and ready clinicians. I look forward to joining campus groups and serving the community alongside the Health Science Center. This will not only make me a better clinician but help encourage the surrounding community. Your contribution aids me in pursuing these goals, and I could not be more grateful.
