TAYLOR SHORTS

School of Nursing

BECAUSE YOU GAVE...

I am enrolled in the BSN to DNP psychiatric and mental health nurse practitioner program. I chose the field of psychiatry because there is a great need for mental health providers in minority communities. My future goals are to be a provider for underserved populations. I specifically want to work with children, adolescents, and Veterans who suffer from PTSD.

WITH YOUR SUPPORT, I CAN...

Being selected as a recipient of this scholarship is an honor. I work full-time as a registered nurse to help support my family. With the help of scholarship funds, I am able to acquire less student loan debt. Earning this scholarship also allows me to focus on my studies by working fewer hours.

WHY I CHOSE TTUHSC...

As a TTUHSC student, I have learned the importance of utilizing communication techniques in patient care settings. These techniques are important in making authentic connections with your patients. This program has also taught me the importance of self-care. In the field of nursing, we focus on our patients and often we neglect ourselves.
