

# Locating Materials

Kaylee Youngblood, MLS & Skyla Bryant, MLS

Aug 2019

TEXAS TECH UNIVERSITY  
HEALTH SCIENCES CENTER..  
*Libraries of the Health Sciences*

# Goals

In this module students will learn the steps for locating library materials, both physical and electronic, through a variety of library tools including:

- TTUHSC Libraries' Website
- Library Catalog
- GoldRush
- Interlibrary Loan

# Objectives

Students will be able to effectively search and find the materials they need for successful research.

Note: Words in blue are hyperlinked to the Glossary at the end of this module.

# Basics of Locating Materials

- TTUHSC Libraries Website
  - Always has the most current links to print and electronic books, journals, and databases
- Citation Format
  - Correctly identifying the parts of a citation allows students to accurately search for and/or request articles and books
- Library Catalog
  - Search for all print and electronic books, print journals, and other physical materials owned in all branches of the Libraries

# Basics of Locating Materials (continued)

- eBooks
  - Convenient resource for students, accessible 24/7, even if the print book is checked out; individual titles can be found by searching the Library Catalog
- eJournals
  - Easily search Gold Rush to find and access all print and electronic journals to which the Libraries subscribe
- Interlibrary Loan
  - Service that allows you to borrow a book or obtain an article
    - Sometimes has a small fee
    - Free for students since January 2019

# TTUHSC Libraries' Website

Always start with the library homepage when you are looking for library materials.

# TTUHSC Libraries' Website (continued)

The screenshot shows the TTUHSC Libraries website. A red box highlights the 'Searches' section at the top, which includes links for PubMed, MeSH, PMID, Journals, Books, and eBooks, and a search bar labeled 'Search PubMed'. Another red box highlights a vertical menu on the left side of the page, containing buttons for 'Databases A-Z (search by topic)', 'GoldRush (search by journal title)', 'Literature Search Requests', 'Books and eBooks (Catalog)', and 'Document Delivery & ILL'. The page also features a navigation bar with links like Home, Resources, Services, Schools & Programs, Faculty, Students, and Help. Other sections include 'Popular' resources, 'Library Hours' for Amarillo, Lubbock, and Odessa, 'Contact Us' with phone numbers, and 'We're Social!' with social media icons.

# Citation Format

It is important to know the parts of a citation so that you can search for or request the book or journal article that you need.

There are many elements to a citation and many variations depending on the type of resource that you are using. The following slides will show you the major parts of a typical book citation and a typical journal article citation.

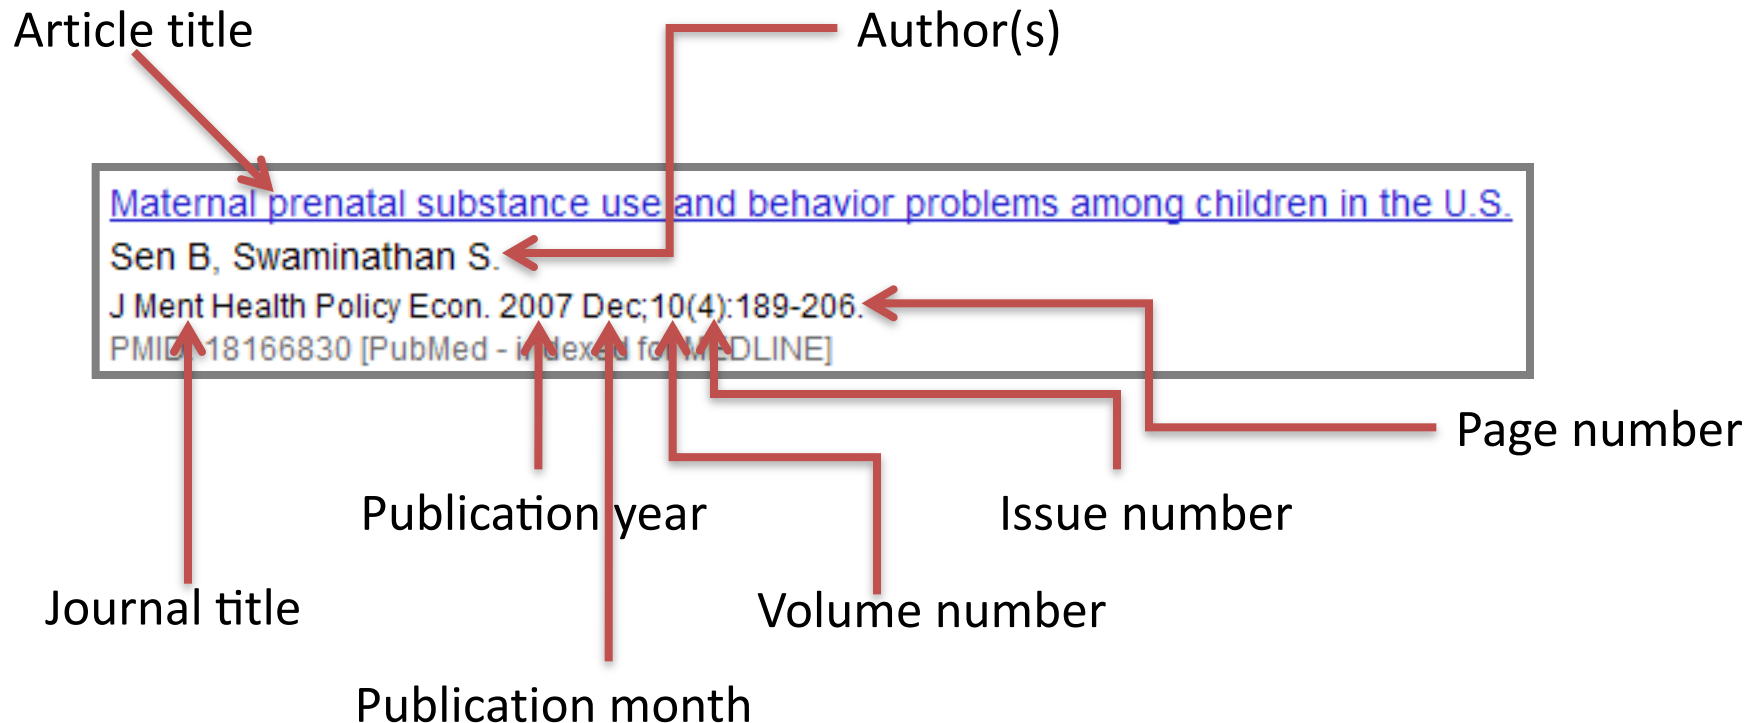

# Citation Format – Book

## Parts of a book citation:

# Citation Format – Journal Article

## Parts of a journal article citation:

# Citation Format – Reference Management

**EndNote** and **RefWorks** are reference management tools that allow users to manage, store, and share reference citations.

- Citations can be imported directly from online databases.
- Users can automatically insert these citations into their papers and generate formatted bibliographies and manuscripts in seconds.
- Consult your library for assistance with these products.

People with diabetes have a higher risk for heart attacks and strokes. High blood pressure and high cholesterol increase this risk even more. Controlling blood pressure and cholesterol are very important for preventing heart attacks and strokes in people with diabetes.<sup>1</sup>

Your doctor should check your cholesterol and triglyceride levels and your blood pressure. You may be asked to take medicines that treat high blood pressure and high cholesterol to lower your risk of heart attack and stroke.<sup>2</sup>

# Library Catalog (continued)

The screenshot displays the library catalog interface for the Texas Tech University Health Sciences Center. The header includes the 'koha' logo, a 'Lists' dropdown, and a 'Search history' link. The main banner features the university's logo and name. Below this is a search bar with a 'Keywords' dropdown, a search input field, and a 'Go' button. A red box highlights the search bar area.

On the left side, there is a 'Refine your search' section with links for 'Availability', 'Authors', 'Holding libraries', 'Item types', and 'Locations'. The main content area shows search results for 'Harrison's Principles of Internal Medicine'. A red box highlights the text 'Your search returned 44 results.' with an arrow pointing to it and the text 'Search results = 44'. Below this, there are two search results for the book, each with details like edition, material type, publisher, and availability. A red box highlights the first result.

On the right side, a 'Sort by' dropdown menu is open, showing options like 'Relevance', 'Popularity', 'Author', 'Call Number', and 'Dates'. A red arrow points to the 'Dates' option, which is further expanded to show 'Publication/Copyright date: Newest to oldest', 'Publication/Copyright date: Oldest to newest', 'Acquisition date: Newest to oldest', and 'Acquisition date: Oldest to newest'. A red box highlights the 'Newest to oldest' option, with an arrow pointing to it and the text '4. Then select an option, such as *Newest to oldest*'.

Three red callout boxes provide instructions: '3. Change the sorting order by clicking the arrow' (pointing to the sort dropdown), '4. Then select an option, such as *Newest to oldest*' (pointing to the 'Newest to oldest' option), and 'Search results = 44' (pointing to the result count).

# Review Point #2

You want to find a book through the TTUHSC Libraries' Website. You don't mind if it is a print or electronic book. Can you use the **library catalog** to search both formats?

# Answer #2

**YES.**

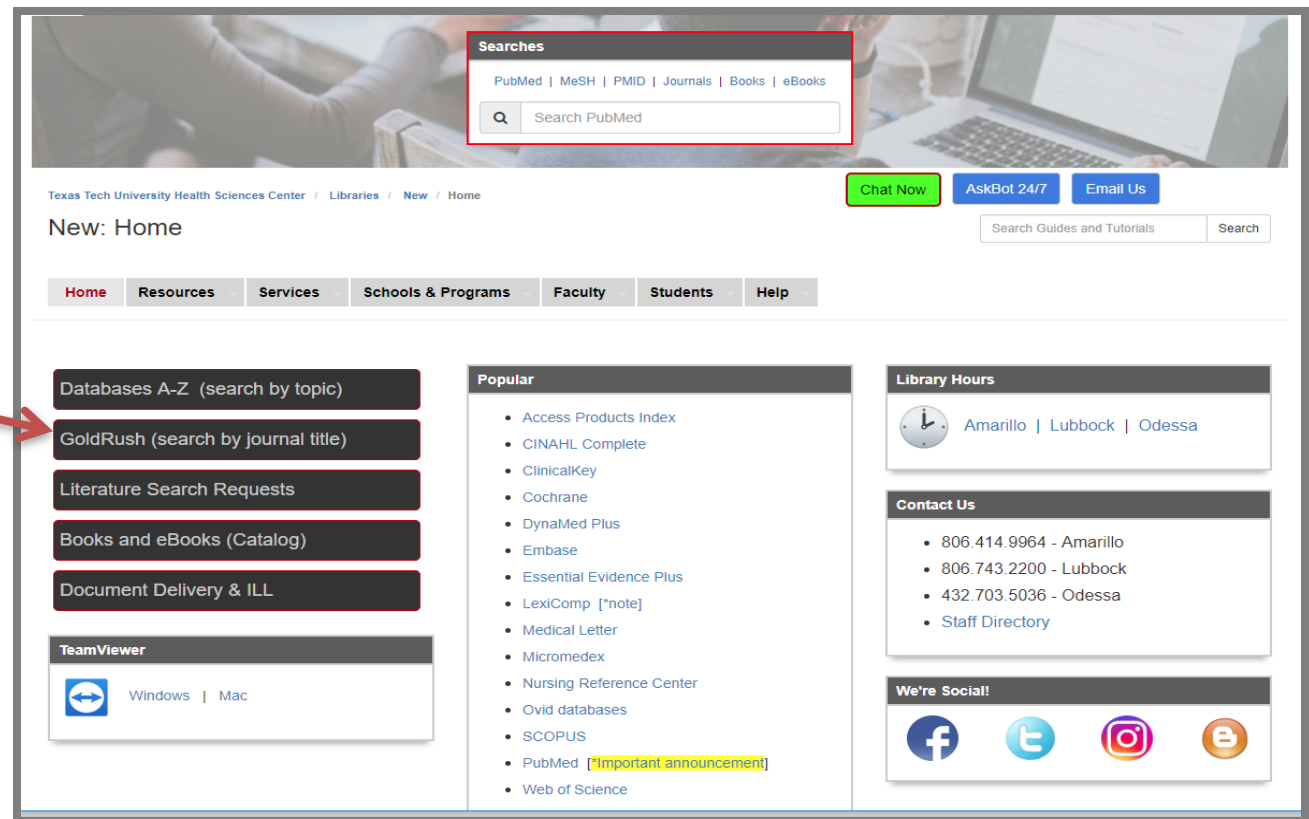

You can use the library catalog to find print and electronic books, print journals, and multimedia titles.

# GoldRush

*GoldRush* is the complete and current list of all journal titles available through the TTUHSC Libraries, both electronically and in print.

To get to *Gold Rush*, click on the *“GoldRush”* button.

Note: Use *Gold Rush*, when you have a full citation...  
Not when you are browsing subjects.

# GoldRush (continued)

# Review Point #3

If you have the title of an article and the name of the author who wrote it, can you find the article in GoldRush?

# Answer #3

**No.**

Gold Rush is a list of all journals available through TTUHSC Libraries. You must know the name of the journal you need before you can search in Gold Rush.

# Interlibrary Loan

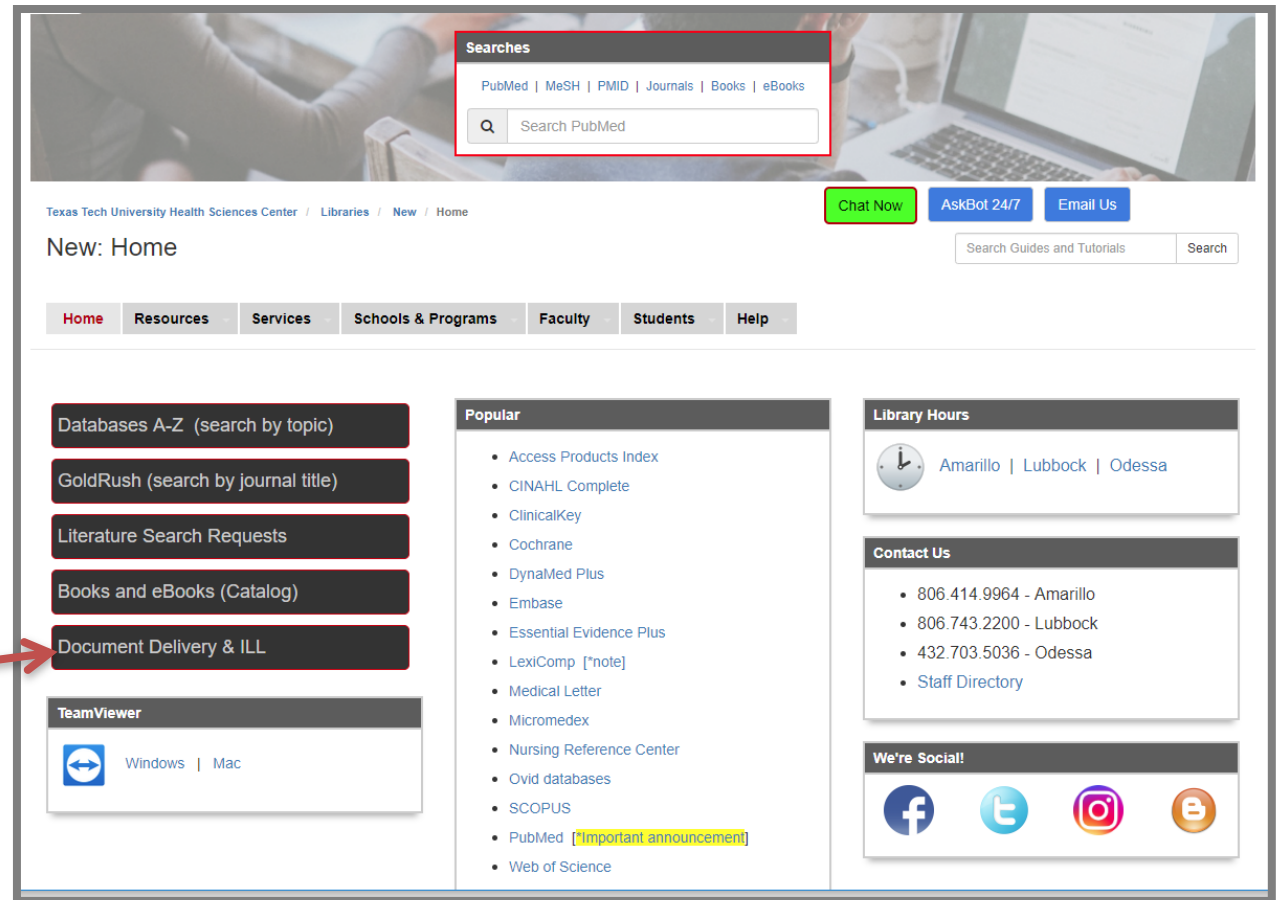

If we don't have what you are looking for, contact the Interlibrary Loan department (ILL) to borrow:

- Books
- Journal articles
- Audiovisuals

from other TTUHSC library branches or other libraries around the country. Sometimes, there are fees for using the ILL service.

You can request an ILL item by filling out a form in your home library or you can fill out an online form.

To get to the ILL page, click on the **Document Delivery & ILL** button.

# Final Points . . . Summarize

Locate library materials, both physical and electronic, always beginning at the *TTUHSC Libraries Website*

- **Citation Format:** Identifier of the book or journal article. You must interpret the citation information correctly to search for or request the book or journal article that you need.
- **Library Catalog:** Search for print and electronic books, print journals, and multimedia.
- **Gold Rush:** Use this when you search for a specific journal article with full citation.
- **Interlibrary Loan (ILL):** Use the ILL form to request materials your Library does not have. Distance students must use ILL to request *all* materials (TTUHSC or other) to be sent to them.
