FACTS AT A GLANCE

What's New:

- Natural Standard is now Natural Medicines
- New Subscription: Docphn
- Preston Smith Library open Sunday mornings

The Harrington Library of the Health Sciences serves the TTUHSC Schools of Medicine, Pharmacy and Allied Health on the Amarillo campus.

As the northern five-library array, we also offer support to the health professionals, hospitals, clinics and the general public throughout the Panhandle.

EndNote Information

About EndNoteDownloadTraining and Support MaterialsReady Reference GuidesContact Us

It is the policy of the TTUHSC Libraries to familiarize and to provide patrons with tools with which to create bibliographies and to perform related bibliographic formatting. The Reference Librarians do not evaluate citations for accuracy. Patrons should consult current citation style manuals, their instructors, or publishers for correct formatting.

ABOUT ENDNOTE

What Is EndNote?

Millions of researchers, scholarly writers, students, and librarians use EndNote to search online bibliographic databases, organize their references, images and PDFs in any language, and create bibliographies and figure lists instantly. Instead of spending hours typing bibliographies or using index cards to organize their references, they do it the easy way by using EndNote and EndNote Web.

Why use a Web-based research management system like EndNote Web?

EndNote Web is a Web-based service designed to help students and researchers through the process of writing a research paper. Students can organize their references for citing in papers. Professional researchers and graduate students can use EndNote Web as the perfect complement to EndNote and other desktop writing tools, as well as storing references between ISI Web of Knowledge search sessions.
