Old Business:

None

New Business:

Dr. Nollan mentioned the library is replacing some of the print collections with online resources. The library is in the process of collecting information to purchase one-time additional resources and no subscriptions.

Faculty Publication link has been added to the Libraries Homepage. The link was created by the Research Department. Dr. Nollan discussed the link will take you to "the SCOPUS database" <http://www.scopus.com/home.uri>, a citation database. SCOPUS has great tools for analyzing the search results.

Eight new glass boards have been installed in several study rooms on the second and third floor. The Learning Resource Center now has moveable whiteboards for students to use.

Parking changes will be coming soon starting May 1, 2017. The main HSC campus parking lots will change as the construction site is fenced off. Construction is due to the expansion. As more updates are provided they will be uploaded to the libraries homepage. One of the expansions will be a bridge connecting from the HSC building to the library, this will take effect sometime later.

Discussions:

Sara Jaroudi mentioned the library has been having plumbing issues. The issues will be notified to the Architects and Plant Operations.

Sara will like to have a microwave, and refrigerator on the second floor for students to use. The idea will be looked into.

A student breakroom with a refrigerator, microwave, and comfortable seating is an idea of having for the third floor.
