## GERMANY UNIFIED !

After more than twenty years of separation by the Berlin Wall, East and West Germany became a single country once again on October 3, 1990. After months of internal unrest and massive emigration, the people of East Germany rejected their government, and demanded reunification. The day before official unification, Britain, France the U. S and the U.S.S.R. withdrew their rights to the city of Berlin. The dismantling of the Berlin Wall, often by hand, was a physical symbol of the beginning of the end of the Warsaw Pact. The first few months of joyous reunion were quickly overshadowed by the realities of meshing the two German economies and cultures.

## COMMUNISM FALLS

Beginning with the dramatic demand for independence by first Lithuania then other Warsaw Pact members, the president of the U.S.S.R., Mikhail Gorbachev faced many threats to his leadership of the "Communist World". Regardless of his attempts at reform, including perestroika and glasnost, the failure of his economic policies lead to widespread unrest. The first free elections in the Soviet Union placed Boris Yeltsin in the position of Chairman of the Supreme Soviet of the Russian Federation. Yeltsin's call for the independence of several Russian states as well as Baltic countries is perhaps the most severe threat to Gorbachev's power. How Gorbachev chooses to deal with these threats will determine whether the result is democracy for independent states, a dictatorship or outright civil war.

## THE IRON LADY RESIGNS

Margaret Thatcher, staunch supporter of Ronald Reagan throughout his term, resigned after eleven years as Prime Minister of England.

## "RE-READ MY LIPS"

While President Bush was elected on the promise of "no new taxes" the nation was faced with new taxes in 1990. These "enhanced revenues" were a response to a mounting budget crisis and the threat of automatic spending cuts mandated by the Graham-Rudman Act.

## SOUTER TO SUPREME COURT

David Souter, relatively unknown, was appointed to the U. S. Supreme Court. Conservatives and Liberals alike wait to see whether he will tip the balance of the court one way or the other.

## ANN RICHARDS ELECTED GOVERNOR OF TEXAS

Demoncrat Ann Richards clobbered Republican Clayton Williams in a controversial gubernatorial race. Williams' insensitive jokes and comments destroyed a significant G.O.P. lead in the polls. Williams sealed his fate with an eleventh hour confession...he didn't know what was on the ballot much beyond his own name. He was, he confessed, relying on his wife's advice.

## "FUTBOL" HERE, FOOTBALL THERE

While in the U.S. football reigns supreme, soccer is the most popular sport in the rest of the world. For the first time ever, the World Cup will be held in the U.S. At the same time, American professional football has been increasingly exported around the world, to such countries as England, Germany, Spain and Japan.

## IRAQ INVADES KUWAIT WAR BREAKS OUT!

One event that truly sets this academic year apart from others is the Gulf War. This war began and ended within the academic year.

There was much apprehension among the American public that this war might become long and drawn out like the Vietnam War. Many demonstrations took place throughout the nation, both in protest and in support of the war. The overwhelming majority of the nation supported President Bush in his firm stand, and Lubbock was no exception. West Texas, like the rest of the world watched the high tech war via high tech media communications. For some, the war was even closer, involving friends and loved ones.

There were many tense moments during the relatively short period of declared war. Even after the fighting between the Allied Forces had stopped, there was conflict between various factions within Iraq. Refugees were attacked by their own countrymen. Human suffering has indeed been great. As future health professionals we are that much more saddened by suffering of any kind.

On August 2, 1990 Iraq invaded Kuwait. The world responded immediately and vigorously throughout the month of August with economic sanctions and a denouncement of Saddam Hussain's actions by the United Nations. The U.S. navy enforced a blockade, and a massive U.S. military build up began in neighboring Saudi Arabia.

In September, the U.S. and Soviet Union became allied against Iraq.

In November, a deadline of January 15 for the removal of all Iraqi troops from Kuwait was set by the U.N.

In December, the outlook for compromise looked quite grim. Saddam Hussain refused to talk and threatened the use of chemical weapons.

Congress formally backed President Bush on January 12. On January 16 war began with an air assault on Bagdad. The ground phase was delayed and lasted only 100

# New Looks And New Spaces

The HSC started off 1991 with a new Student Services Center and a new Student Lounge. The Student Services Center provides spatially organized service in style - art deco, that is.

The Student Lounge, on the other hand, has a kind of retro-Fifties feel complete with pool tables, foosball, and a pretty amazing wide-screen TV.

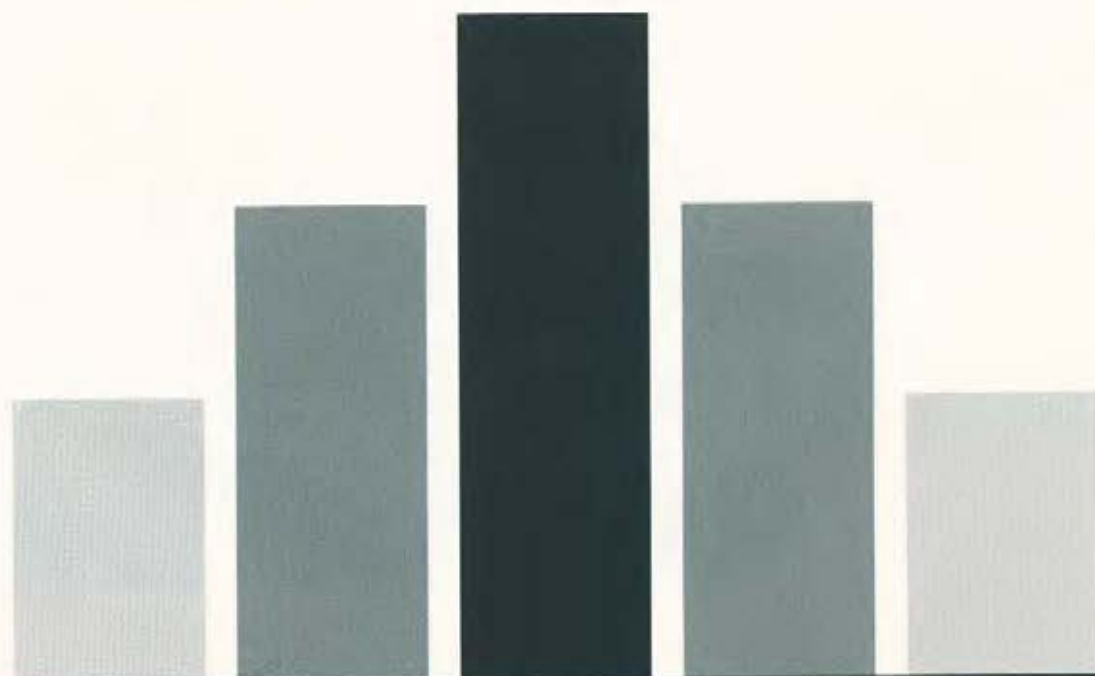

Samy Deeb and Ron Connor.

# Letters From Home

Throughout the Persian Gulf Crisis not only was Lubbock covered with yellow ribbon, but also people wrote to their friends and family stationed far away. An electronic mail service was based in the HSC library.

## Improving Health Care In West Texas

Texas Tech's mission to improve the quality of health care in West Texas continues. Students and faculty visit rural areas to increase access to pediatric services. Texas Tech has helped to lower the infant mortality rate in the areas that it serves.

# AIDS Education

Four years ago Texas Tech medical students formed a committee and sought local and federal money to fund the committee. The purpose of the committee was to train medical students to go to local high schools and youth groups to provide AIDS education. This year the training course was offered as an elective for first year medical students. 15 students participated in the class.

Students from the Study of STDs class that taught at All Saints Episcopal School.

Roy Davis, an AIDS patient and educator with South Plains AIDS Resource Center, Karen Dadich of TTUHSC Nursing School and David Ceader of West Texas AIDS Foundation all helped with the AIDS education.

# A Good Deed For The Day

What is that in the distance?  
Is it a bird???

Yes! It's a turkey!

In the spirit of the season and in an effort to raise money for the United Way, the HSC voted with their spare change for the faculty member they wanted to dress as Turkey for the day. And the winner was . . . Gwynne Little!

# Drug Education

The only way to get the drug problem sweeping the nation under control is to address the issue at an early age.

David DuBose and Jim Hastings put this theory into practice with a Drug Education Program at Hueco Elementary School - El Paso, Texas.

# Project Magic And O.T.s

Project Magic is a program designed to give the gift of magic to people with any kind of handicap. By learning to perform magic, individuals achieve new levels of skill which motivates them as they progress through rehabilitation and also helps them develop and improve their self-esteem.

# Scut Clinic

## Introduction To Clinical Skills

Performing a medical procedure for the first time may be a bit uncomfortable for both the patient and student doctor. To reduce this uneasiness, the Family Practice Student Association conducted a workshop in April of 1991 to introduce second year medical students to some often used medical skills. The workshop was led by Dr. Richard Homan, a member of the TTUHSC Department of Family Medicine and the recently appointed faculty advisor to the FPSA.

The workshop consisted of several stations, each staffed by faculty and residents from the Department of Family Medicine. Topics covered included IV/Venipuncture, lumbar puncture, EKG basics, suturing and sage advice on the ins and outs of doing well on a clerkship rotation. The use of real equipment and life-like models allowed students to gain true "hands-on" experience with the supervision of an experienced family physician.

An informal poll of the forty-five students who attended indicated that it was a great success. There is a possibility that some of the skills will be integrated into the second year Intro to Patient Assessment class. Whatever the future forum may be, the favorable response of both faculty and students indicate that the skills clinic will likely be an annual event for TTUHSC and the Department of Family Medicine.

# MS-Is Recycle

Soon after realizing that it takes a lot of caffeine to get through the first year, MS-Is also realized that they and the rest of the Health Sciences Center were generating a lot of needless waste in the form of aluminum cans. In an effort to conserve resources and landfill space, plus generate some income for the class graduation fund, recycling buckets were placed around the Health Sciences Center. A paper recycling box was also placed by the mailboxes.

Efforts were led by John Earley, Ron Hublall, Holly Stewart, Maria Dizon, and Mark Livingston.

Recycle buckets became a familiar sight.

A psychiatric evaluation of this facial expression might reveal which of the following:

1. Russell is tired of being an MSII.
2. He is tired of looking at happy first years.
3. He can't wait to be a third year.
4. He knows he has to read SOMETHING, even if it's not Harrison's
5. He's been unable to find a patient willing to let him try a rectal.
6. He's really smiling on the inside ...

### Allied Health Affirmation

As we begin practice in the Allied Health Professions, we affirm the following:

We believe in the rights and dignity of all individuals;

We believe in the confidentiality of a patient's trust;

We believe in the practice of sound judgment and honorable ethics;

We believe in the stewardship of good health;

We believe the foundation of our practices is continuing education and consistent standards;

We believe in human diversity and adaptability which allows humankind to grow, understand and heal themselves;

We believe that all good works emanate from the inner strength of a man or woman in the pursuit of excellence tempered by compassion.

### Affirmation of Commitment

We believe the nature and purpose of nursing is providing a caring response to human needs. We believe the practice of professional nursing provides nurses and clients a unique opportunity to share the wonder, pain and awe of human existence.

We further believe that to fulfill our commitment to those needing nursing care we must:

require increasing expertise from our colleagues;  
function as advocates for our clients;  
continue to "*develop organizational, economic, political, legal and ethical climates that support nursing values and expertise,*"  
Increase collegial relationships with others in the health care field;  
and  
support a spirit of professional unity.

With caring at the heart of our profession, we dedicate ourselves to our clients and each other. Today, we publicly affirm our commitment to our clients, our colleagues and our profession.

Written by Mary Slater, 1983 Graduate, School of Nursing, Texas Tech University Health Sciences Center, Italic words are from the "Declaration of Belief" (p. 61) by Margaret M. Styles ON NURSING -- TOWARD A NEW ENDOWMENT, St. Louis: C. V. Mosby Company, 1982.

# APPRECIATION DINNER

The Appreciation Dinner is an annual event organized by the Office of Student Services in honor of the Student Senate. The students use this opportunity to show their appreciation of all the Staff and Administration that have been supportive and indeed indispensable. Stan Young gave a speech recounting the year's accomplishments. Angela Paduch sang "Friends" as a close to the dinner.

The outgoing Senate Officers with Sponsor and friend Vonnie Somerville.

# MEDICAL MATCHING TEST

1. "BAH-zee-lah AHR-tah-ree"
2. "You must know this you have no choice."
3. "Ladies and Gentlemen...Jesus, Maria!"
4. "For your various and sundry orientational purposes, this is a breast..."
5. "Yoh cahn see dis ya-ya, once yoh see dis yoh nevah four-get-it."
6. "You don't come to medical school to be spoon fed... you have to read Harrison's."
7. "I told you this before... it's so easy that a blind monkey could do it."
8. "Preventive medicine, not PrevenTAtive."
9. "I may not have my facts straight, but I'm going to make this comment anyway even though everyone in here probably already understands, and maybe I'm an idiot but..."
10. "Excuse me but what is a hydrocarbon?"
11. "This is the hardest medical school in the country, if I were at Harvard I'd be number one in my class..."
12. "Excuse me Dr. Seliger, but I need to potty."
13. "Trust me..."
14. "I promise I will hold his hand while he writes the neuropathology test questions, so be sure to study what I mentioned."
15. "I know what I just said didn't make any sense, so don't pay any attention to what I just said, and just go by the notes."
16. "If they miss a test, KICK 'EM OUT!"
17. "Does it go up, down or stay the same?"
18. "If you don't toot your own horn once in a while someone is going to use it as a piss-tube."
19. "Secretory Wee-sicle"
20. "Someone's been playing fast and loose in here..."
21. "The flocculus has a very floccular shape...Pffh,Pffh,tss...sigh,sss...( breathe)"
22. In reference to Dr. Sawyer,"He needs to quit impersonatin' the KING."
23. "Hmm, what color should I use?" asks the Embryo lecturer.  
"Red,... Green,... Puce!" jeers the 1st year gallery.  
"PRE-PUCE!" yells \_\_\_\_\_.
24. " And then I just had to go buy two cucumbers..."
25. " I think I may have to repeat this year..."
26. "I refuse to treat any unhealthy, unphysically fit patient..."
27. " Ooo, AH, AHH, AHH, EEE, EEE, EEE!"
28. "Hah-per-beeli-rewben-chmia"

*What's it all about?* The PLEXUS is a way to remind us all of the time that we spent at Texas Tech Health Sciences Center. Just as we will forget much of the information we have learned if we don't use it, we will also forget events, names and even faces. It is in this sense that I can call the PLEXUS a reference book. This reference book has been compiled by students, and has been personalized by those students who submitted photos with captions, provided accurate rosters, or contributed in some other way. Without the contributions of others, there is no possible way that I could capture the Health Sciences Center as a whole. So....I want to thank those people went out of their way to personalize this year's PLEXUS.

## Thank You

*Vonnie Somerville*-advisor and problem solver extraordinaire. Thanks for encouragement, support and help with details like the last minute faculty picture!

All of *Student Services* but especially:

*Marilyn Buchanan*-reminders in the Orator, letters, graphics, and especially the Alumni donations.

*Judy Leos*-letters, receipts, organizations' payments, helping me to call the other campuses.

*Olga Ortega*-helping to sort out the El Paso faculty list.

*Kay Scroggins*-helping to sort out the Amarillo faculty list.

Several Students, but especially:

*Stanford Young MSII*-orchestration of the Organizations' photos, overall support and help with finding people.

*Melissa Orsak* and *Yvonne Brannigan*-for deliberating so carefully on each and every caption, completing the P.T. section, and contributing pictures for the activities section. Also for Yvonne's ever-so-calming voice in the midst of panic.

*Nicole Wintory* and *Medina Corwin*-helping with the OT section and contributing pictures

*James Holbridge* and *Azhar Razool*- for helping with parts of the Nursing roster section.

*Ken Brantley*-computer wiz-kid and photographer extraordinaire for the graduate section, organizations, Research Day, Talent Show, and Faculty, and graphics which were "downloaded directly to the printer without a program because they're written in Post Script."

*Jeffrey Grice*-volunteering his time at the points at which I was most desperate! roster sections, and faculty.

*Tito Razdan*-for tolerating the interruptions in study time and encouraging me to forge onward.

*Joanna Dupont*-for typing, inspiration, and shooting some photos.

*Wendall Parkey*-help with news(I know I changed it some but it really revolved around your help!), and photos.

*Michelle Brochner*-for helping me to decide to take on this job, and ads.
