Peggy Edwards, AMLS  
TTUHSC - Preston Smith Library  
Lubbock, Texas 79430

# *Welcome!*

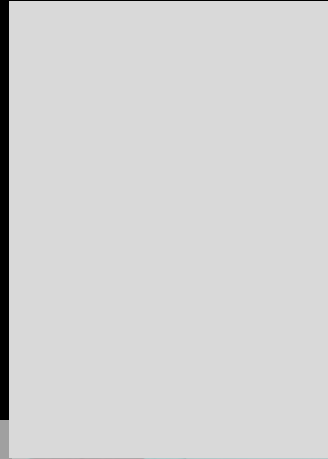

Preston Smith Library  
located west of the  
Academic Classroom  
Building

Available on 2<sup>nd</sup> floor of  
library, across from the  
Learning Resource Center  
and public computers

8am–5pm  
Monday–Friday

Peggy Edwards

Micah Walsleben

Margaret Vugrin

# AGENDA

## **NRSG 4322, EBP**

**Place: 1C125A**

**Monday, January 30, 2017**

**Time: 1:40 pm - 3:10 pm**

Approx. 60 students - Lubbock;

16 students - Abilene TechLink

Contact: Brandy Pitts (743-4039)

1:40-1:45	5 min.	Introduction - Brandy Pitts, Peggy Edwards
1:45-1:55	10 min.	Tour library home page: Ask-a-Librarian, Guides & Tutorials, Peer-Reviewed Articles, Bibliographic Tools, APA Tutorial, SON Popular Resources, TeamViewer
1:55-2:30	25 min.	CINAHL
2:30-3:05	35 min.	PubMed, Gold Rush try specific search questions
3:05-3:10	5 min.	Evaluations

Rover: Margaret Burnett, Margaret Vugrin

Handouts: Nursing handout

## TTUHSC Bibliographic Tools

It is the policy of the TTUHSC Libraries to familiarize and to provide patrons with tools with which to create bibliographies and to perform related bibliographic formatting. The Reference Librarians DO NOT evaluate citations for accuracy. Patrons should consult their instructors, current citation style manuals, or publishers for correct formatting.

## Basics of APA Style Tutorial

In this tutorial you will learn how to apply some basic rules of APA Style.

For in-depth guidance on style and for comprehensive information on publishing in the social and behavioral sciences, we urge you to buy the *Publication Manual of the American Psychological Association, Sixth Edition*.

Where various elements of APA Style are described, chapter and section numbers are given to tell you where more details can be found in the *Publication Manual*.

[Begin the tutorial](#)

Guides &  
Tutorials

The screenshot shows the TTUHSC Libraries website homepage. At the top, there is a red navigation bar with links: CAMPUSES, INFO FOR, SCHOOLS, CONTACT INFO, and SITE MAPS. Below this is a search bar with the text "Search TTUHSC" and a "Go" button. The main content area is titled "Welcome to the TTUHSC Libraries" and features a "Featured Resource" section for "AnatomyTV - a suite of 3D interactive anatomy models". To the right, there is a "Library Hours" section for "All Campuses". The central part of the page is a large search area with a "PubMed" logo and a search bar. Below the search bar, there are tabs for "PubMed", "Journals", "Catalog", "Databases", "eBooks", and "Proxy". The search bar has a "Go" button and radio buttons for "Keywords", "MeSH", and "PubMedID (PMID)". To the right of the search bar, there is a "NEW" badge and a link to "Annals of Internal Medicine". Below the search bar, there is a "Popular Resources by School" section with icons for GSBS, SOM, SON, SOP, SHP, and Public Health. Further down, there is an "Other Popular Resources" section with icons for PubMed, Journals, ClinicalKey, Embase, Micromedex, CINAHL, Nursing Reference Ctr, and OVID. At the bottom, there is a "Services" section with icons for Ask A Librarian, Off Campus Login, Interlibrary Loan, 3D Printing, Library Cards, PayOnline, Submit Comments, and TeamViewer. The footer section is titled "We're social!" and includes links to Facebook, Twitter, News, Events, and Outages. On the left side of the page, there is a vertical sidebar with a "QUICK SEARCH" section, a "RESEARCH TOOLS" section with links to Library Home, Library Catalog, Textbooks?, Concurrent user limits, LibGuides, Databases, eBooks, Theses, & Dissertations, eJournals, Online Multimedia, Public (non-TTUHSC) Access, and Other Resources. Below this is a "LIBRARY SERVICES" section with links to Ask A Librarian, Bibliographic Tools, Printing and 3D printing, Interlibrary Loan (ILL), Reference Services, Purchase Suggestions, Reserve A Room (Lubbock), Noise Reporting (Lubbock), Comments & Suggestions, Alumni Services, and Ultrasound Equipment. At the bottom of the sidebar is a "RESOURCES" section with links to About the Libraries, Contact the Libraries, Guides & Tutorials, Distance Students, EBM OSCE Instruction, Library Courses, Business Continuity, Writing Center, and a "HEALTH SCIENCES CENTER..." section with links to HSC Home, Welcome to the HSC, and Office of the President.

# Enter breastfeeding

The screenshot shows the EBSCOhost search interface. At the top, a blue navigation bar contains links for 'Sign In', 'Folder', 'Preferences', 'Languages', 'Ask A TTUHSC Librarian', and 'Help'. Below this, a secondary bar lists 'New Search', 'Publications', 'CINAHL Headings', 'Evidence-Based Care Sheets', and 'More'. The main search area features the EBSCOhost logo on the left and the Texas Tech University Health Sciences Center logo on the right. The search input field contains the text 'breastfeeding' and is highlighted with an orange box. Below the input field, a dropdown menu displays 'Suggested Subject Headings' for 'breastfeeding', including 'breastfeeding', 'breastfeeding benefits', 'breastfeeding in public', 'breastfeeding education', 'breastfeeding vs bottle feeding', and 'breastfeeding support'. To the right of the input field, there are three dropdown menus labeled 'Select a Field (option...)', a green 'Search' button, a green 'Clear' button, and a help icon. A yellow arrow points from the 'Search' button to a separate 'Search' button in a blue box at the bottom right.

Put 2011 in the Date Selector  
and tap the enter/return key

The screenshot shows a database search interface. On the left, under the heading "Boolean/Phrase:", there is a search query: "((MH "Qualitative Studies")) AND (S2 AND S3)". Below this, under the heading "Limit To", there are several options: "Full Text", "Peer Reviewed", "Abstract Available", and "Publication Date". The "Publication Date" option is selected, and a date selector is set to "2011". A blue arrow points from the text "Put 2011 in the Date Selector and tap the enter/return key" to the "2011" in the date selector. Below the date selector, there is a "Show More" link. On the right, there are two search results. The first result is by Ryan, Kath; Team, Victoria; Alexander, Jo; Psychology & Health, 2017; 32(3): 312-329. 18p. (Article) ISSN: 0887-0446. The second result is titled "2. Validation of realistic simulators used for breastfeeding guidance: a quasi-experimental study." by Fontoura Abissulo, Carla Moema; Silvino, Zenith Rosa; Campos Ferreira, Helen; Online Brazilian Journal of Nursing, 2016; 15(4): 599-604. 6p. (Article) ISSN: 1676-4285. Both results are marked as "Academic Journal". There are links for "Check Availability" and "PlumX Metrics" for the first result, and "PDF Full Text" and "Save PDF to Cloud" for the second result.

1. **Presenting efficacy information in direct-to-consumer prescription drug advertisements.**  
O'Donoghue AC<sup>1</sup>, Sullivan HW<sup>2</sup>, Aikin KJ<sup>2</sup>, Chowdhury D<sup>3</sup>, Moultrie RR<sup>3</sup>, Rupert DJ<sup>3</sup>.

Author information

Abstract  
**OBJECTIVE:** We evaluated whether presenting prescription drug efficacy information in direct-to-consumer (DTC) advertising helps individuals accurately report a drug's benefits and, if so, which numerical format is most helpful.  
**METHODS:** We conducted a randomized, controlled study of individuals diagnosed with hyperlipidemia. We provided them with a printed or electronic copy of a direct-to-consumer (DTC) advertisement for a cholesterol-lowering drug. The advertisement presented efficacy information in three formats: absolute frequency, percentage, and percentage with no efficacy. We asked participants to report the drug's efficacy. We generally found that participants reported higher efficacy when presented with absolute frequency information than when presented with percentage information. This finding was more pronounced when participants were presented with absolute frequency information and on a drug with low efficacy. These findings suggest that providing quantitative efficacy information in a combination of formats (both absolute frequency and percent) may help patients remember information and make decisions about prescription drugs.

## Patient Education and Counseling

Volume 95, Issue 2, May 2014, Pages 271–280

Medication Information

### Presenting efficacy information in direct-to-consumer prescription drug advertisements

Amie O'Donoghue<sup>a</sup>, Helen W. Sullivan<sup>a</sup>, Kathryn J. Aikin<sup>a</sup>, Dhuly Chowdhury<sup>b</sup>, Rebecca R.

Click to download PDF

We evaluated whether presenting prescription drug efficacy information in direct-to-consumer (DTC) advertising helps individuals accurately report a drug's benefits and, if so, which numerical format is most helpful.

#### Methods

We conducted a randomized, controlled study of individuals diagnosed with high cholesterol ( $n = 2807$ ) who viewed fictitious prescription drug print or television ads containing either no drug efficacy information or efficacy information in one of five numerical formats. We measured drug efficacy recall, drug perceptions and attitudes, behavioral intentions, and drug risk recall.

# Appealing the Editor's Decision When and How

Deborah A. Chyun ▼ Mary C. Sullivan ▼ Judith A. Vessey ▼ Susan J. Henly

Receiving a message from an editor that transmits a "do not accept" decision is a uniformly disappointing experience for author-investigators. In this dispiriting situation, it is critical that correspondence from the Editor is clear and courteous, includes the reviewer comments, provides an explanation for any Editor disagreement with the reviewers that had bearing on the decision, and conveys some indication of why the paper was not accepted.

In all scientific fields, every step in the peer review and editorial decision-making process involves judgment and balance of factors including importance and timeliness of the topic, technical accuracy, clarity of exposition, novelty, and interest to readers ("Decisions, decisions," 2002). The processes we use at *Nursing Research* are systematic. We attempt to ensure that every submission receives a prompt, thorough, and fair review. We select peer reviewers with content and methodological expertise, ask reviewers to report any potential conflicts of interest (to the extent that these are knowable in a blinded review process), provide structured guidelines for completing a review, and continuously monitor review quality. The decision to accept or reject a manuscript is based on the advisory input from reviewers (who may disagree in their appraisals of a paper) and editor assessment of the scientific rigor of a manuscript and its potential contribution to advancing the science, as well as to its fit with the editorial mission of the journal. The Editor has the final authority and responsibility for making the decision about the disposition of each manuscript.

Editors and peer reviewers are fallible. Even when fair and informed processes are in place, errors in decision-making can occur. For this reason, journals should have a declared mechanism for authors to appeal against editorial decisions (Committee on Publication Ethics [COPE], 2011). Consistent with recommendations from COPE, *Nursing Research* has instituted a process for handling appeals against editorial decisions to reject a manuscript. The appeal process is intended for use in situations where authors can make a convincing argument that a serious lapse in the peer review or editorial decision-making process may have occurred. Simple disagreement with a decision to reject a paper is not grounds for an appeal.

The appeal process at *Nursing Research* is delineated in the Information for Authors (<http://journals.lww.com/nursingresearchonline/Pages/informationforauthors.aspx>). Key details are as follows:

- The appeal must be submitted to the Editor between 14-28 calendar days after the date of the decision to reject a manuscript.
- Specific rationale for the appeal must be provided.

- The Editor will notify the corresponding author whether an appeal is warranted or not.
- Upon determination by the Editor that an appeal is warranted, the Editor will convene an Appeal Panel composed of the Associate Editor and two Editorial Board Members and convey this to the corresponding author.
- The Appeal Panel will review the original manuscript, the reviewer comments, and author correspondence. They will independently provide their recommendations, with rationale, to either retain the Editor's decision or rescind the decision to reject in favor of an invitation to revise and resubmit.
- The Associate Editor will inform the Editor of the Appeal Panel's recommendations and the Editor will consider the recommendations and make a decision, which will then be communicated to the corresponding author within six weeks of receiving the letter requesting an appeal.

In conclusion, the development of an appeal process has provided the editors, the editorial board, and our reviewers with the opportunity to reflect anew on how critical our manuscript decision-making responsibilities are. It has also provided a forum for a thoughtful discussion, with other nursing editors at the recent International Academy of Nursing Editors (INANE) meeting this past August in London that is reflected in this editorial (Henly, Chyun, Sullivan, & Vessey, 2016). We also hope that in delineating the process for an appeal that authors have a better appreciation of when an appeal is justified and how the process unfolds at *Nursing Research*.

Deborah A. Chyun, PhD, RN, FAHA, FAAN, is Associate Editor; Mary C. Sullivan, PhD, RN, FAAN, is Editorial Board Member; Judith A. Vessey, PhD, MBA, RN, FAAN, is Editorial Board Member; and Susan J. Henly, PhD, RN, FAAN, is Editor of *Nursing Research*.

The authors have no conflicts of interest to declare.

Accepted for publication November 3, 2016.
