

Author Workflow for Hindawi Journals

Gold Open Access

Author Workflow – Hindawi Submission

Hindawi journals have a **slightly different workflow for authors**, managed through the system Phenom, as opposed to prior workflows taking place in Wiley's EEO/submission systems or Wiley Author Services.

As part of their submission workflow, authors will be asked to input all authors on the paper. Please note it is this step that **triggers eligibility**.

This system only allows for **one corresponding author (CA)** to be labelled here. Each author can only add **one affiliation**.

Authors will get **emails** on:

- Submission, acceptance, rejection, or withdrawal of manuscript
- Approval or denial of request

Author Workflow – Hindawi Submission

1. Select Journal 2. Pre-submission Checklist 3. Manuscript & Author Details 4. Files Upload

3. Manuscript & Author Details

Please provide the details of all the authors of this manuscript, in the order that they appear on the manuscript.
Your details have been pre-filled as the submitting author.

Manuscript Title *
Test manuscript for author's guide

Manuscript Type *
Please select
Review Article
Research Article

Abstract *
Test abstract of my manuscript.
