Variety is the spice of life

A never to be matched variety show was sponsored by the first year medical class and enjoyed by faculty, staff and students. The program was sponsored by the Vile Kingdom with host Marlena Perkins, who had discovered a new species, Homo medicus.

David Morledge and Dr. Meyer's understudy institute a new occupational therapy program for anorexia nervosa patients.

"Hey Mike, Does Scooby know about that blonde you brought home the other night?"

Look what the last dust storm blew in.

Dr. Dalley and Benny Lobstein welcome you to Fantasy Island.

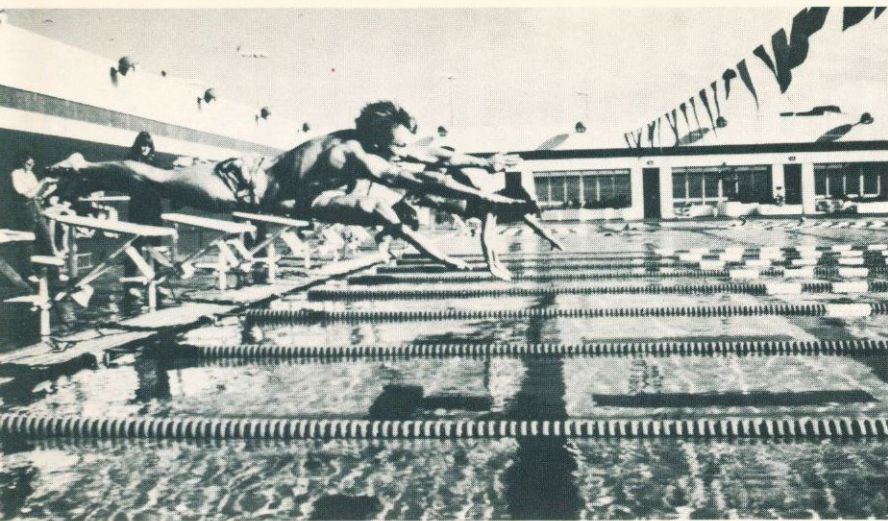

Mutual of Omentum's Marlena Perkins and assistant demonstrate sub species Homo medicus cadaverus immaculatus.

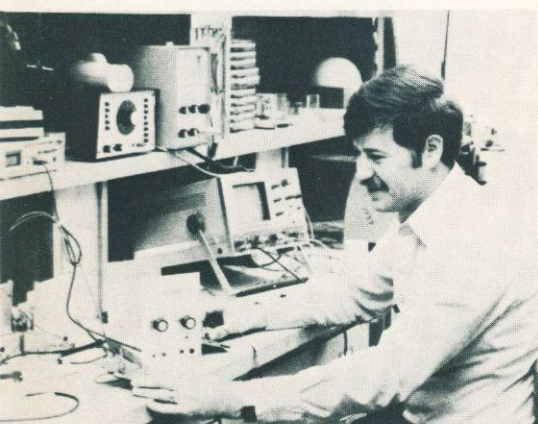

Special guest star Minnie Moore would still give her left tonsil to know where Herb Janssen is today.

Joe doesn't need buttercups on a hillside.

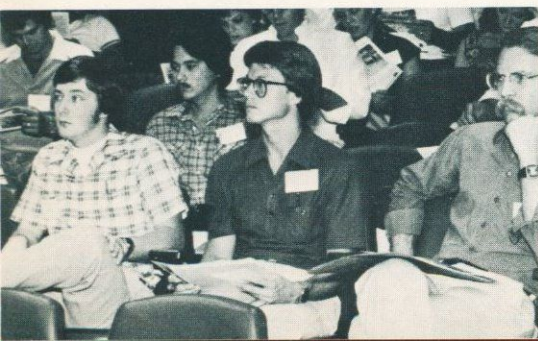

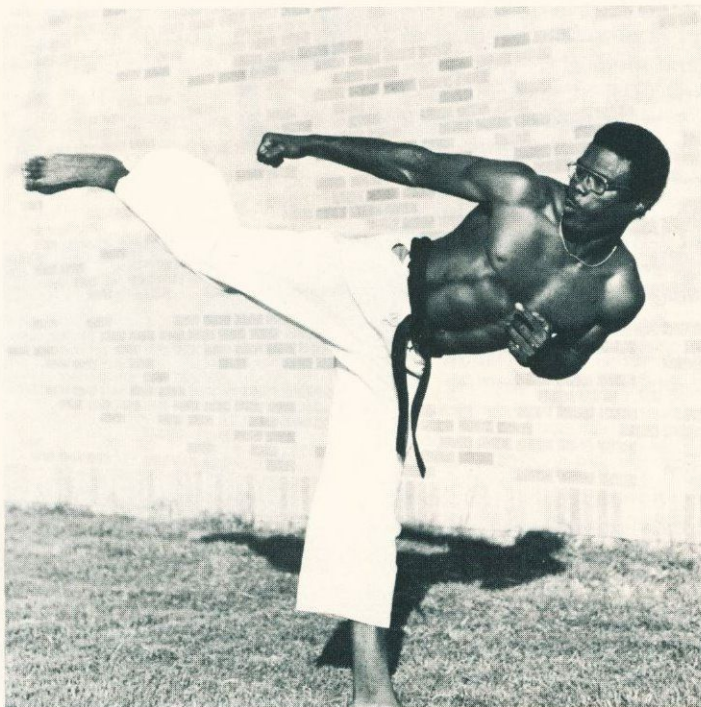

Death and Dying elective involves nursing, law and medical students.

Grad Student Leon Shturman builds and tests a neuro-stimulator designed during an academic course.

Elmer Tarbox and Dr. Penny Coates share their observations during a break at the Symposium.

Damien Kuffler from Stanford Medical School, Roger Markwald and Gary Ciment from the University of Oregon discuss presentations at the Tarbox Symposium in September.

Tarbox Parkinson's Disease Institute

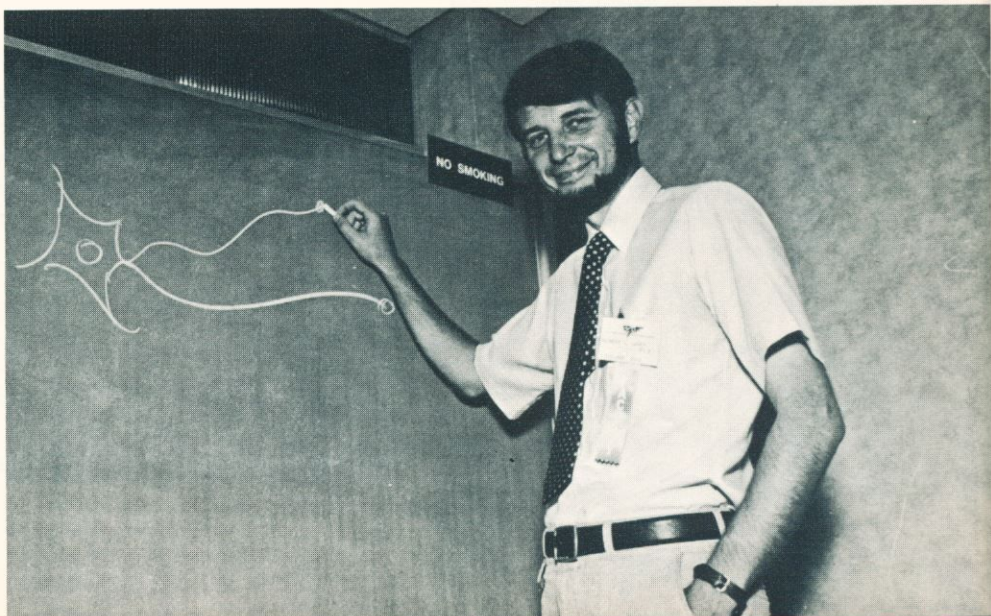

Named after former State Representative Elmer Tarbox, the Tarbox Parkinson's Disease Institute supports educational programs, clinical activities and research associated with the diagnosis and etiology of Parkinson's Disease and related neurological disorders.

Tarbox Fellowship programs fund predoctoral, postdoctoral and medical student research. Awards permit TTUHSC students to conduct research in a faculty member's laboratory. The Clinic is concerned with diagnosis, treatment and monitoring persons with known or suspected Parkinson's Disease. The Tarbox Lecture Series brings speakers to TTUHSC to discuss research activities related to neurological disorders. The Tarbox Institute also sponsors biennial symposia which feature leading international scientists in neurological disciplines.

Raymond Lasek, keynote speaker at the September symposium, demonstrates the relationship of the axon to the nerve cell during his presentation.

Alexander Kenny, Ph.D., D.Sc.
Director, Tarbox Institute

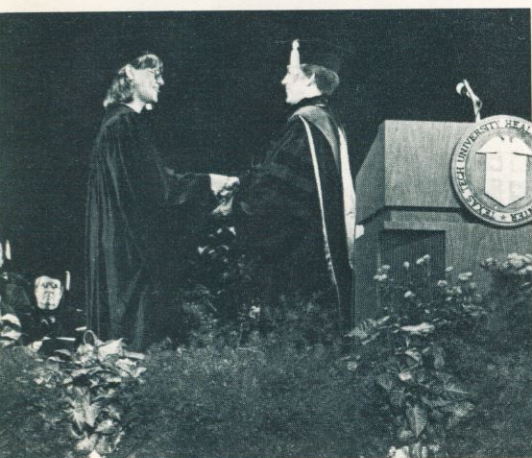

Awards

The 1983 awards ceremony honored special achievements of numerous HSC students: (Above) A few of the new members of Alpha Omega Alpha: Fred Bishop, Johnny Bowen, Richard Briggs, Randall Frost, David Haymes, Bridget Heinen, Kevin McLeod, Robert Mills, Francis Mueller, Thomas Raetzsch, Watson Roye, Harry Wadsworth. (Middle) The Gold-Headed Cane Award, symbolizing the art of medicine, was presented to Fred Bishop. (Bottom) The Award of Excellence in Nursing Practice was presented to Mary McCarthy Slater.

Other awards included basic science faculty awards to Sue Gunasegaram, M.D., Carter M. Alexander, M.D., and Roger R. Markwald, Ph.D as well as clinical science awards to Peter C. Canizaro, M.D., Samuel F. Romero, M.D., Rolf Habersang, M.D., O. Lynn Avant, M.D., Joe N. Kidd, M.D., and Robert S. Urban, M.D. Mel Crozier was awarded the administrative excellence award, and staff excellence awards went to Jane Carter and Olga Ortega. The William W. Frye Award was presented to William H. Gordon, M.D., professor of family and internal medicine.

The achievement award in anatomy went to Paul M. Munden. Dermatology awards went to Andrew Davis and Timothy Cornitius, earned in pharmacology and microbiology, respectively. Neuroscience awards went to Blake Avera, James Earhart, and Maria Johnson. Avera also received the award in physiology. Rebecca MacGregor received the CIBA award for community service. Judy Smith received the award in anesthesiology, and Marla Neiman and Marc Wimpee were named outstanding students in family medicine. John Morris, Johnny Bowen, and Mark Godat received the awards in Ob/Gyn. David Haymes and Francis Mueller received the pathology awards. Pat Brown received the West Texas Children's Foundation Award in Pediatrics. Michael Strickland received the Sandoz Award for psychiatry. Bridget Heinen received the Robert J. Salem Award in surgery. Fred Bishop was named outstanding student in internal medicine and received the Dean's Award for highest academic achievement. Randy Frost received the Upjohn award in medicine. Cheryl Mueller and Larry Baros received the Merck Manual Awards. Robert Mills, Kevin Browne and Michael Whetstone received the Mosby Scholarship Book Awards for scholastic excellence.

Declaration of Geneva

At the time of being admitted as a member of the Medical Profession,
I solemnly pledge myself to consecrate my life to the service of humanity;
I will give to my teachers the respect and gratitude which is their due;
I will practice my profession with conscience and dignity;
The health of my patient will be my first consideration;
I will respect the secrets which are confided in me;
I will maintain by all the means in my power, the honor and noble traditions of the
medical profession;
My colleagues will be my brothers;
I will not permit consideration of religion, nationality, race, party politics or social
standing to intervene between my duty and my patient;
I will maintain the utmost respect for human life; even under threat, I will not use
my medical knowledge contrary to the laws of humanity.
