## Mandatory Sessions and Activities for General Principles of Infection (GPI) 2019-20

*Updated 04/15/2020* 

## Note:

Unit evaluations (must complete 2 out of the 4 unit evals)
Faculty evaluations (must complete at least 2 faculty evaluations per unit)
End of Block evaluation is required

All 8 Firecracker quizzes are mandatory and average 60% at midpoint and end of block.

All 4 unit exams and the final exam are required.

Session One (Block Intro and Dr. Williams Lecture) is required for all students.

Check Sakai for session time changes and additional live stream and chat room availability.

There are a total of 10 small group sessions (dry labs, TBLs, Review sessions etc). ALL ARE MANDATORY, but, you only have to complete the online assignments for 6 out of the 10. This may include individual quizzes and/or complete assignments (multiple choice questions or open-ended questions) to receive full credit for the activities. These are open-book assignments so completeness of the activities will be expected.

Material presented in all ISS, mandatory small group sessions and CICR sessions are testable.

The ISS assignment (H & P written assignment) is 2% of your final grade. (Directions, case topics, and an example assignment will be posted on Sakai)

Day	Date	Time	Room	Session/Activity	Information
Monday	March 30	8- am midnight Mandatory for all students Attendance quiz will be given	On-line	General Principles of Infection (GPI) Introduction of Block AND Intro. Diagnostic Reasoning Compentency	Speaker: Popp and Williams
