

Grading Policy for Professionalism in Years 1 and 2

Approved by Education Operations Committee, June 15, 2017

Approved by Educational Policy Committee, July 13, 2017

Professionalism Assessment

Professionalism assessment will be separate from academic grading. Assessment of professionalism will include attendance and participation expectations as defined in the list of mandatory activities for the Block.

Block Director actions for failure to meet expectations include but are not limited to:

- First and second incident = email warning from Block Director. This communication must be documented by Delivery and Read Receipt notification.
- Third incident = student may be referred to SPPCC as determined by Block Director.

Note: longitudinal professional performance will be tracked by the Office of Curriculum to identify students with patterns of unprofessional behavior that extend for longer periods of time.
