**Clerkship Final Grade  
2021-2022**

Final Grades in clerkships are determined according to a mathematical formula described in SOMOP 30.01: Grading Policy. The grade is comprised of 50% of the score from the Clinical Assessment component, 35% of the NBME Equated Percent Correct Score and 15% of the OSCE score. The score that corresponds to each grading category are approved each year by the Clinical Education Operations Committee and shown below.
