SOM OP: 70.02, Student Application Process

PURPOSE: The purpose of this School of Medicine (SOM) Policy and Procedure is to outline and describe the processes for application to the TTUHSC SOM.

REVIEW: This SOM Policy and Procedure shall be reviewed within each odd-numbered fiscal year by the Admissions Selection Committee. Revisions will be forwarded to the Office of the Dean for approval and publication.

POLICY/PROCEDURE:

1. **General.** This policy outlines activities managed by the SOM Admissions Evaluation Committee and the SOM Office of Admissions and Diversity.

2. **Application to the MD Program.**
   a. Each applicant to TTUHSC SOM is required to complete the “Primary Application” through the Texas Medical and Dental Student Application Service (TMDSAS). Associated fees for application to specific Texas medical schools must be appropriately directed and paid by the applicant.
   b. Upon receipt of the TMDSAS application, TTUHSC SOM will extend an invitation by email to individual applicants advising the completion of the TTUHSC SOM “Secondary Application” and payment of associated processing fees.
   c. Following successful completion of the TMDSAS Primary Application, which includes receipt of all “supporting documents” (MCAT scores, Letters of Evaluation/Recommendation, and transcripts from all colleges/universities attended) and the TTUHSC SOM Secondary Application, applications and supporting documents are made available for evaluation by the Admissions Evaluation Committee (AEC).

3. **Application Evaluation Process.**
   a. Completed applications are assigned to a member of the AEC for evaluation.
   b. AEC members review both applications in their entirety, including the Letters of Evaluation/Recommendation and other supporting documents. After initial submission of the TMDSAS and/or TTUHSC SOM Secondary Application, an applicant may submit updates to the application including completed course grades, awards, leadership, volunteering, healthcare experiences, and employment.
   c. AEC members score each applicant with a rubric developed by the AEC. Evaluations are finalized with one of the following recommendations:
      1) Interview
      2) Do not interview
3) Hold for late interview

4) Second review recommended

d. If a second review is recommended, one of the Office of Admissions Administrative Team (Associate Director of Admissions, Director of Admissions, or the Associate Dean of Admissions) reviews the application using the same rubric developed by the AEC and determines if applicant will be invited for an interview.

4. Interview Invitation. If an applicant is selected for interview, an e-mail extending an invitation for an interview date is sent to the e-mail address provided in the application. Each applicant is given a deadline by which an online acceptance must be made. If the interview date provided is not feasible for an applicant, the applicant is instructed to contact the Office of Admissions to arrange for an alternate interview date. Once an applicant has set an interview date, a confirmation e-mail with instructions and details regarding the interview day is sent. An applicant is also provided information regarding available medical student housing while traveling for the interview.
