*Hepatology curriculum is provided longitudinally.

COMMUNITY CLINICS/ENDOSCOPY ROTATION BY SITE

Community Clinic (CC) rotation defined – All community physicians that fellows will rotate with are part of Site 3 (UMC Gastroenterology. Below is the schedule of that rotation. This experience is designed in an effort to allow the fellow to mostly stay at one site in order to limit the number of times the fellow commutes between sites. Each Community Clinic experience will a one-half day transplant hepatology clinic on the 3rd Friday (morning) of each month and their own continuity of care clinic for their panel of patients every Friday afternoon. This enables the fellows a diverse patient population, outpatient experience, and opportunity to treat, learn, and experience the breadth of the gastroenterology disease states in the community in which we serve.
