J. McCarthy Community Clinic	J. McCarthy Community Clinic	J. McCarthy Community Clinic	J. McCarthy Community Clinic	COC TTUHSC (site 3)

Community Clinics (CC) rotation defined – each fellow will rotate through every community clinic (CC) rotation over the course of their 36 months of training. Each community clinic's schedule is described in the preceding page. Each experience is designed in an effort to allow the fellow to mostly stay at one site in order to limit the number of times the fellow commutes between sites. Each Community Clinic experience will a one-half day transplant hepatology clinic on the 3rd Friday (morning) of each month and their own continuity of care clinic for their panel of patients every Friday afternoon. This enables the fellows a diverse patient population, outpatient experience, and opportunity to treat, learn, and experience the breadth of the gastroenterology disease states in the community in which we serve.

Community Clinics (CC) rotation by site:

Site #1: CMG – Covenant Community Clinic

Site #2: UMC – Southwest GI (Drs. Costilla, Alam, Das) **AND** Thomas Kerr (Transplant Clinic) – this clinic is only held on the 3rd Friday of each month. The fellow will attend this clinic every 3rd when on any of the Community Clinic (CC) rotations. The 1st, 2nd, 4th, and 5th Friday of the month the fellow will attend the Community clinic assigned for the site in which they are scheduled.

Site #3: TTUHSC - fellow continuity of care clinic. The fellow COC occurs ½ day per week on Friday afternoon with 6-8 patients each clinic. This will occur on every inpatient and outpatient assignment, regardless of the site in which they are assigned. *Fellows rotate in the endoscopy suite (procedures) ½ day per week at TTUHSC Pavilion Clinic while on research or subspecialty rotations.

Site #4: Lubbock Gastro – Dr. Islam's Community Clinic

Site #5: Dr. J. McCarthy – Dr. McCarthy's Community Clinic

Electives:

Fellows choose electives based on individual interests. Electives originate at Site #1 but may occur at several sites.

- Mayo clinic coordination, CMG Children's hospital – Pediatric GI, TTUHSC colorectal surgery, TTUHSC GI Oncology, Outpatient Pediatric GI -Simek, Feist and Higgins, TTUHSC El Paso – Advanced Motility
- **Potential elective experiences include:** Lubbock IBD – Dr. Dassapoulous, Capsule endoscopy, LDDA – Community Clinic

Lecture schedule: Fellows must participate in the core conference series, clinical case conferences, journal clubs, research conferences, and morbidity and mortality and quality improvement conferences.

- Core Conference – fellows will attend, participate and present at core conferences to broaden their knowledge in the gastroenterology field which will include a board review and a practice management didactics.
- M&M – fellows will attend, participate, and present in the monthly departmental M&M conferences (3rd Thursday of each month Noon-1pm)
- Clinical Case conference – Weekly
- Journal Club – Weekly
- Research Conference – Monthly
- Grand Rounds – department sponsored grand rounds on various topics including internal medicine and all subspecialty related topics. These will occur each Thursday from noon-1pm on the 1st, 2nd, 4th, and 5th Thursday of each month.

- QI – Project Conference (monthly)
- *Pathology conference and Radiology Conference*
