➤ Advice for Physicians

- Medical advisory board of 12 pediatricians/other physicians that work with Turn Center. Extremely helpful during COVID-19 regarding medical precautions.
- Turn Center emphasizes the importance of corroboration between health care professionals to work with kids who need help with higher level coordination skills.
- To future physicians: “Be open to what is available in your community and what partnerships you’re able to form! It’ll make your position stronger, and you can better help your patient!”
