- Veterans and their families
 - Someone must reach out to Red Cross to receive assistance

➤ Services Provided

- Disaster Relief
- Providing Lifesaving Blood
 - Free Covid-19 antibody testing
- Supporting Service Members, Veterans, and Families
- Providing Training
- Saving Lives Across the World

➤ Clients' Health Needs

- Refilling prescriptions and re-ordering glasses for individuals who lost them due to disaster
- Mental health services
- Providing vaccinations

➤ Clients' Health Information Needs

- Smoke detector installation
- CPR and First Aid training
- Creating safety evacuation plans

➤ Advice for Physicians

- All physicians are able to assist in providing vaccinations and refilling prescriptions/glasses lost.
- There is a need to have provider involvement and providers should advocate on their patient's behalf.
- Red Cross is volunteer and donation driven, so physicians willing to donate time and energy are greatly appreciated.

Every 2 seconds, someone in the U.S. needs lifesaving blood.
